## MONARCHIST FORCES ARE UNDER FIRE IN PEKING

Battle Rages in Forbidden City—Foreigners Wounded During Fight for Capital Control

BUILDINGS BURNED AS FACTIONS FIGHT

Republican Advance on City Marked by Spirited Action of Troops; Negotiation Starts

BY ASSOCIATED PRESS  
LEASING WIRE TO TRIBUNE  
SHANGHAI, China, Thursday, July 12.—Then Tsan telegram says the republican attack on Peking began at 4 o'clock this morning and that artillery, machine guns and airplanes are being used. Five or six foreigners who were watching the fighting from the walls of the city were wounded. The legations are receiving foreigners for protection and taking every precaution. It is reported that telegraphic communication has been interrupted.

TIENTSIN, July 13.—Fighting began today just outside the gates of Peking between Chang Hsun's monarchist forces and the encircling republican army.

TIENTSIN, July 13.—Republican headquarters say that owing to General Chang Hsun's refusal to mediate, they intend to attack the Forbidden City at the first opportunity. Hereafter, owing to the proximity of Chang Hsun's residence to the legation quarter, Chang Hsun has artillery and republicans fear that in the event of the entering Peking Chang Hsun will fire into the legations.

Wang Tah Sieh, the new foreign minister, went to Peking today, apparently to negotiate with the foreign legations regarding the situation. The republicans say that with their 60,000 troops in and around Peking they could promptly overcome Chang Hsun's resistance were there no fears that he would savagely attack foreign property generally.

MONARCHISTS SAFE.  
Republican headquarters reports that 3000 troops of General Chang Hsun, the monarchist leader, are secure in the Temple of Heaven after a fight of two hours. Chang Hsun took refuge in the Dutch legation. Fighting continues in the forbidden city with a remnant of Chang Hsun's forces. A large fire is raging there.

ARABS IN REVOLT  
LONDON, July 13.—Although little has been heard of him recently, it developed that the "King of the Hejaz," the former grand chief of Mecca, has been continuing his activity in Arabia. This Arab leader has been in revolt against the Turks since July 1916.

James Ian MacPherson, parliamentary secretary to the war office, said the Turkish posts between the Taffia-Matn district and Akaba now were in Arab hands. The Turkish losses in the fighting, that has taken place were 700 killed and 600 prisoners.

It seems probable that the towns of Taffieh and Maan, Northern Arabia, are those referred to.

TO REMOVE CHIEF

An ordinance providing for the removal of Chief of Police Petersen and the appointment of his successor has been drawn, and is in the hands of Commissioner F. F. Jackson. It was to have been introduced at this morning's session of the council, according to Commissioner Fred F. Morse, but owing to the "reluctance of certain members of the council to vote on the matter during the absence of Chief Petersen," introduction will be held in abeyance until some time next week.

The name of the proposed successor to Chief Petersen has not been confirmed, but it is rumored strongly that Corporal W. J. Coley or Sergeant Henry Nedderman are being considered.

SURVEYOR OF PORT

WASHINGTON, July 13.—John S. Irb of San Francisco was today nominated by President Wilson to be surveyor of the port at San Francisco.

Irb is private secretary to United States Senator James D. Phelan.

Not the Boss's Ability

but the inefficiency of his poorest clerk is the measure of a firm's success, just as the march of an army is timed to that of its slowest part.

If you are seeking better men to fill the vacancies in your business—do you advertise for them this way:

"WANTED—An order clerk; must have refs. Jones Co., foot of 1st st."

Or do you bid for ambitious young men by stating that yours is the largest brick yard in California, that your last order clerk is now "on the road" for you at \$300 a month; that Jones Co. employees kick because they like the firm and the work, etc., etc.

Nonsense? Not at all—you want to meet the best men out of employment. You are selling, not buying. You say, "Right," as you would your bricks. What you pay for the space it takes you'll get back in the class of answers you receive.

## TRIBUNE WILL PRINT WAR REGISTRATION SERIAL NUMBER LIST

Watch The OAKLAND TRIBUNE for your serial number in the selective draft.

The complete lists of registered men in Oakland, consisting of 17,000 names, with the serial numbers attached to the duplicate cards which have been sent to Washington will be published Sunday morning by The TRIBUNE.

The United States government has requested that every man ascertain his own number in order that he may know, immediately after the result of the drawing has been announced, whether or not he has been selected for service in the army. These numbers have all been changed by the exemption boards since registration day, and it is the duty of each eligible man to find out his new serial number.

Realizing that much time would necessarily be lost by men standing in queue at the city hall to consult the one list which has been posted there, The TRIBUNE, to do its part in making the selective draft a success and to aid its readers, has made arrangements with the exemption boards to publish the complete lists on Sunday morning.

The issue of The OAKLAND TRIBUNE for Sunday, July 15, will be invaluable to thousands of households for reference. Eligible men can find therein their serial numbers and the numbers of their friends and acquaintances. When the result of the drawing in Washington is announced, a glance at The TRIBUNE will tell a man whether or not he has been chosen for national service, and it will tell him as well who of his friends have been drawn.

## Korniloff's Army Meets Fresh Success

BY INTERNATIONAL NEWS SERVICE

LEASING WIRE TO TRIBUNE

PETROGRAD, July 13.—The Russians swept forth to fresh successes today, meanwhile extending their offensive to new sectors.

That portion of General Korniloff's army which stormed Kalusz, the former Austro-German headquarters in Galicia, is reported to have occupied Krechovice, which is on the railway leading to Dolina.

North of this sector Russian cavalry is approaching the Svica river, fifteen miles from Kalusz, where the Austro-German soldiers are expected to make a stand.

North of the Dniester the Russians are fighting for the railroad town of Buczacz, an important position north of Halicz.

The Russians are now astride the railway and highway leading from Stanislaw to Strzyz. This latter town is another of the key positions defending Lemberg on the south.

Towards the Carpathian foothills west of Stanislaw, the Russian advance has slowed down owing to the tactical nature of the ground attacked.

In the course of the battles in Eastern Galicia on Wednesday, says the official statement issued today by the Russian war department, the Russians captured ten officers and 850 rank and file, chiefly Germans. They also took five heavy guns and ten machine guns.

ARTILLERY ATTACKS FAIL.

PARIS, July 13.—"During the night the artillery fighting was particularly active in the region of St. Quentin Du Pantheon and on the two banks of the Meuse," says the official war office statement today. The communication adds:

"Enemy attacks east of the Marne, salient near the Vialat wood at Hill 304 and in the Carrières Wood failed."

BRITISH RAIDS SUCCESSFUL.

LONDON, July 13.—Intense raiding activity was reported from the British front by the war office today.

The British during the night made successful raids in the Hulluch and Ypres areas.

Three German raids were undertaken with strong detachments, but all were driven off.

McADOO STARTS U. S. ACTION IN FARM BANK ROW

BY UNITED PRESS

LEASING WIRE TO TRIBUNE

WASHINGTON, July 13.—The Federal Farm Loan Board today requested Judge Charles E. Lobb, member of the board, to go to Berkeley, California, immediately to investigate friction in the Federal Land Bank there.

Secretary McAdoo today stated that upon receipt of Judge Lobb's report the "board will take appropriate action. The board deprecates the regrettable situation."

## KAISER MAY ANNOUNCE WAR STAND

German Despatches Prophesy Electoral Reforms and Aims of Government to Be Made

Reichstag to Discuss Foreign Policy, Finance, Political Situation and Likely Peace

LONDON, July 13.—German despatches reaching here today prophesied that the German government would accede to the Reichstag majority members' demand for electoral reforms and for a full statement of Germany's war aims before the vote of credit is asked Saturday.

AMSTERDAM, July 13.—Tomorrow promises to be a busy day for the present session of the German Reichstag.

In addition to current reports that the resignation of the entire German cabinet might be announced, the day's program includes general debate upon the political situation, finance, the foreign policy and possible peace.

The Liberals threaten to introduce a resolution setting forth the peace terms of the entire Liberal factions of the empire.

So far, said a despatch from Berlin dated Thursday evening, the main committee of the Reichstag has refused to discuss the Reichstag's demand for 15,000,000,000 marks, but in spite of this refusal it is understood that the credit will be discussed in the open sitting of the Reichstag.

DESIRE RESULTS.

"If this great crisis produces merely half measures, there will be general disappointment and damage, followed by many worse crises," declared the Berlin Tageblatt today in a significant editorial.

Other German despatches indicated increasing unrest at the capital over continued lack of any settlement of the Reichstag situation. Count von Bernstorff, formerly ambassador at Washington, was widely reported as having been asked to succeed Foreign Minister Bethmann-Hollweg.

The Berlin Lokal Anzeiger says a communication from the Austro-Hungarian government has been received in Berlin declaring that Dr. von Bethmann-Hollweg's continuance in office as chancellor is of importance and his retirement possibly a fatal mistake.

The telegram was obviously despatched to store the decision on the Prussian franchise was taken, which is generally interpreted in Berlin as a sign that Dr. von Bethmann-Hollweg would remain.

The executive committee of the Catholic Center of the Reichstag on the other hand believed Dr. von Bethmann-Hollweg unsuited to conduct peace negotiations, and says he should be replaced before an ultimate peace conference, considering the fact that the decision of war occurred under his administration.

GERMAN WAR AIMS.

The party organ Germania asserts that Chancellor von Bethmann-Hollweg will accept a resolution on war aims of the majority parties in the Reichstag tomorrow. This resolution will re-state that the chancellor's announcement at the outbreak of the war that Germany was undertaking a defensive war and declare that the majority of the Reichstag favors a peace based on a mutual understanding and lasting reconciliation of nations.

As long as the enemy governments refuse this, the German people and Reichstag, the resolution says, are united in a determination to fight on until the rights of Germany and its allies are assured.

RIGID CENSORSHIPS EXIST.

WASHINGTON, July 13.—Holland does not minimize the present German internal situation. Advice reaching the State Department today show that the German censorship is still being rigidly enforced. The danger of the situation is that the censoring of the press is being so strict that the German government is being isolated from the world.

The New York Times reports the resignation of Chancellor von Bethmann-Hollweg and the entire cabinet has been confirmed, but states that no decision has yet been reached by the emperor.

THE NEW YORK TIMES reports the resignation of Chancellor von Bethmann-Hollweg and the entire cabinet has been confirmed, but states that no decision has yet been reached by the emperor.

The paper quotes a letter from the emperor to the president of the Prussian cabinet ordering that a bill for equal franchise be introduced in the Prussian Diet early enough so that new elections may take place on that basis. The paper says that the resolution of the Reichstag majority not to vote war credits before a satisfactory solution of the crisis is reached shows that the advocates of parliamentary reform mean business. The Berlin correspondent of this paper telegraphs that it is impossible for him to send any reports.

The Frankfurter Zeitung is warning the nation against any halfway measures and urges a clean slate and a government.

## ARMY QUOTA FOR DRAFT IS DECIDED ON

Official Demands Sent Governors of All States; Military Credits Reduce the Number

Western Registration Below What Was Expected, Lowers Apportionments; Draw Soon

WASHINGTON, July 13.—The toll of manhood that each state must furnish to America's citizen army was announced by the war department today.

The figures are based upon a total initial draft of 687,000 men. In assigning the quota that each state must yield the war department used the federal census population estimates.

New York leads all others with 69,241. Oregon is asked to yield the least—717. California is asked for 23,000 men.

Many of the Western states' quotas are unusually low because the registration was only 50 to 80 per cent of the first estimates of the census bureau. Other states in the Middle West, Ohio, Wisconsin, Illinois—ran over the estimates by 10 to 20 per cent.

The quotas were sent to the governors of each state and territory and the commissioners of the District of Columbia, who were directed to apportion the quotas through the local boards.

Secretary of War Baker's letter, dated July 12, was as follows: "By virtue of the authority vested in him by Congress, I am authorized to increase temporarily the military establishment of the United States, approved May 18, 1917, the President of the United States has ordered the aggregate number of 687,000 men to be raised by draft for the military service of the United States, in order to bring to full strength the organizations of the regular army and the organization embodying the members of the national guard, united and separated."

Under the new law, the United States and to create the national army and has caused said aggregate number to be apportioned to the several states and territories and the District of Columbia, and to be distributed in the schedule heretofore appended.

GOVERNORS CALLED ON.

"The governors of each state and territory and the commissioners of the District of Columbia, acting for and by the direction of the President and in accordance with said act of Congress, are hereby directed to prescribe pursuant thereto, shall apportion the quotas so apportioned to such states, territories or districts and shall communicate to each local board established in such state, territory or district, the quota of the quota to be furnished by such board and such quota shall thereupon be furnished by the respective local boards as required by said act of Congress and rules and regulations prescribed pursuant thereto."

In the announcement by the war department allowance was made for men in each state in the National Guard and volunteers in the regular army and militia since April 1. The quotas are based on the census of 1910. In this way states that have answered the President's call for volunteers will carry a lighter burden than the "stocker" states.

CALIFORNIA CREDIT, 11,788.

The credits allowed states for National Guardsmen and for enlistments since April 1, 1917, are as follows: Alabama, 7651; Arizona, 998; Arkansas, 7155; California, 11,788; Colorado, 5027; Connecticut, 7807; Delaware, 1363; District of Columbia, 717; Florida, 18,325; Georgia, 15,325; Idaho, 2538; Illinois, 27,304; Indiana, 12,409; Iowa, 12,672; Kansas, 11,325; Kentucky, 7878; Louisiana, 4867; Maine, 5243; Maryland, 7018; Massachusetts, 22,448; Michigan, 15,569; Minnesota, 8129; Mississippi, 3600; Missouri, 18,670; Montana, 2533; Nebraska, 5691; Nevada, 332; New Hampshire, 3207; New Jersey, 14,586; New Mexico, 1557; New York, 69,241; North Carolina, 14,711; North Dakota, 2115; Ohio, 27,625; Oklahoma, 4244; Oregon, 8557; Pennsylvania, 37,245; Rhode Island, 4455; South Carolina, 5940; South Dakota, 4125; Tennessee, 7593; Texas, 17,488; Utah, 2566; Vermont, 2188; Virginia, 7525; Washington, 5450; West Virginia, 5721; Wisconsin, 2747; Wyoming, 1863; Alaska, 13; Hawaii, 4397; Porto Rico, 624.

QUOTAS COMPILED.

Following announcement by Secretary of War Baker that the first draft of American citizen soldiery would be about 687,000 men, the quotas of the states were compiled today as follows: Alabama, 13,612; Arizona, 3472; Arkansas, 10,267; California, 23,000; Colorado, 4733; Connecticut, 10,977; Delaware, 1202; District of Columbia, 717; Florida, 6325; Georgia, 15,325; Idaho, 2538; Illinois, 27,304; Indiana, 12,409; Iowa, 12,672; Kansas, 11,325; Kentucky, 7878; Louisiana, 4867; Maine, 5243; Maryland, 7018; Massachusetts, 22,448; Michigan, 15,569; Minnesota, 8129; Mississippi, 3600; Missouri, 18,670; Montana, 2533; Nebraska, 5691; Nevada, 332; New Hampshire, 3207; New Jersey, 14,586; New Mexico, 1557; New York, 69,241; North Carolina, 14,711; North Dakota, 2115; Ohio, 27,625; Oklahoma, 4244; Oregon, 8557; Pennsylvania, 37,245; Rhode Island, 4455; South Carolina, 5940; South Dakota, 4125; Tennessee, 7593; Texas, 17,488; Utah, 2566; Vermont, 2188; Virginia, 7525; Washington, 5450; West Virginia, 5721; Wisconsin, 2747; Wyoming, 1863; Alaska, 13; Hawaii, 4397; Porto Rico, 624.

# INDIGNITIES CHARGED IN NEW REPORTS

HAVRE, June 20.—(Correspondence of The Associated Press).—The Belgian government has received from various sources evidence which accords in every detail, proving that deported Belgian civilians are subjected systematically to mistreatment to bring them to forced labor in the German army.

This evidence alleges insufficient nourishment, cruel punishment, brutal intimidation and hard conditions of labor, under which a great many of the deported civilians succumb while a larger proportion return so reduced and weakened that they are incapable of physical effort.

This is the regime of the camp of Soltau described by one of the men who has been interned there and who succeeded in asking, "In the morning a third of a litre of beverage resembling coffee but seeming to have been made of acorns, at noon a half litre of soup, generally made of beans, but sometimes of potatoes; in the evening a fifth of a litre of porridge made of corn meal or barley; the ration of bread is about a half pound per day; it is made of a mixture of cornmeal and rye. The interned are never given more than a few slices of cheese. In certain camps the evening meal was suppressed altogether and even the other meagre repasts were reduced for those who refused to work for the Germans."

**POST TORTURE.**  
Besides hunger, the principal measures resorted to in order to bring the deported men to submission were the "supplies of the host." Fed to posts, the men are exposed to heat or cold, according to the season, for days together during which the food rations are reduced systematically until they reach the proportions of a half ration only for two days' subsistence.

Another cruelty practiced upon the deported to force them to work is the "supplies of the tank" or a severe application of the Turkish bath. Several witnesses have confirmed this fact, among them the son of a manufacturer of the region of Antwerp, who with several of his comrades was shut up in a small room heated to a very high temperature. There was only room in the place for them to stand erect and so crowded they were scarcely able to turn. They were left there for 24 hours. Then they were led to a factory in the neighborhood where they were asked to work. Upon their refusal they were taken to a field under military escort, divested of their overcoats, shoes, scarfs and hats or caps and exposed in a snowstorm an entire day and night with nothing to eat or drink and under the absolute prohibition to make the slightest movement. Some of them lost consciousness after a few hours of this exposure and all of them were taken to the hospital the following day.

A number of witnesses called attention to the fact that frequently groups of deported men have been the subject of summary execution and sometimes by machine guns in order to impress their comrades.

**ANOTHER CONSTRAINT.**  
There is also another means of constraint used upon the deported in the form of punishment camps, where the regime is still more severe than in the other internment camps, and where the deported are forced to work in the marshes, often in most excessive cold weather, dressed in nothing but trousers, shirt and wooden shoes, without food during an entire day.

# Kaiser May Announce Aims Despatches Prophecy Reforms

(Continued From Page 1)

ment resting on the confidence of the Reichstag and the people. The Kaiser's declaration that it is a question whether the emperor ever will agree to a government against the wishes of the "whole right."

The Kaiser's declaration, says the Associated Press, is a question whether the emperor ever will agree to a government against the wishes of the "whole right."

Germany is making no real internal reform. The reported resignation of Hoffweg and his associates meant to officials here today merely a shift of mind—not principles. Germany is throwing out a sop to world opinion, it is believed, while in fact she remains a great military autocracy.

Taking stock of the situation, both from press reports and from the word of returned observers, military men today viewed matters with extreme pessimism. Hoffweg's scornful rejection of "no annexations, no indemnities" signified to the experts here that the military side of Germany has presented statistics spelling cold-bloodedly the German confidence in victory. And while military men only whisper this—they say that present developments point strongly to the uselessness of the present trench warfare as a decisive factor in swaying the war balance.

**TANKER FIGHTS  
OFF SUBMARINE**  
AN AMERICAN PORT, July 13.—Details of a four-hour battle fought off the coast of Spain by the American tanker Moren and a German submarine on June 12 were brought to the United States today by Captain Thomas Thompson of the Moren, who arrived aboard a passenger liner. Forty-three of the Moren's crew accompanied him.

The Moren was bound from Baton Rouge, La., for Leghorn. The U-boat shelled the Moren repeatedly, the tanker replying. One shell from the submarine finally blew up the decks of the Moren and ignited her gasoline cargo. The crew then abandoned the vessel. Four men were lost. One oiler was drowned, two of the crew were killed by gunfire and the wireless operator died of heart failure.

**BANGOR, Me., July 13.**—The five-masted schooner Mary W. Bowen, of Fall River, has been torpedoed, according to private advices received here today. The schooner was bound from New Bedford for Portland. The fate of the crew is unknown.

**WASHINGTON, July 13.**—The American barque Hildegarde of New Orleans was submerged July 10. Her crew was rescued. The American sailing ship Bowen was sunk by gun-fire July 8, according to State Department despatches. Her crew of eleven has been landed. The department received confirmation of the sinking of the American steamer Massepequa with the rescue of all the crew.

A big air victory or a decisive naval encounter, they declare, is the only thing to upset present alignments. Trench warfare, as they see it, is only a continuous murder, with no prospects of either side drawing real victory.

The United States, experts say, must undertake a big air offensive, or risk all her ships in a smash at Germany's "U-boat navy," in the Kiel canal, else the existing deadlock will continue to be a deadlock on the west front. America perhaps could turn the scales, they say, by sending more millions of men than she has planned, but the process would be so long as to be almost impossible.

Meantime, the German upheaval is not seriously taken here, for it spells nothing approaching a real popular revolution, in the minds of authorities.

**BACK BEHIND.**  
THE HAGUE, July 13.—According to the Lokai Anzeiger of Berlin, the Austro-Hungarian government has requested that Dr. von Bethmann-Hollweg be retained as the imperial chancellor.

The Austro-Hungarian note says that the people of the dual monarchy have the most confidence in the ability of Dr. von Bethmann-Hollweg to steer a clear course through the war troubles.

It is believed that Count Czernin, the Austro-Hungarian foreign minister, inspired the measure.

# NO ACCIDENTS MAR TROOP MOVEMENTS

**AMERICAN HEADQUARTERS IN FRANCE, July 13.**—Not a single accident has marred the transport of the United States troops from their temporary camp to the permanent base behind the front.

The Americans continued crossing France today and the same enthusiasm was shown by the people as characterized the first day.

Enthusiastic receptions were given to General Pershing's Yankee boys at every station which the troop trains stopped.

Observance by the American troops in France of the French national holiday is provided in a proclamation issued today by Major-General Pershing. It follows: "July 14 is hereby declared a holiday for all troops in this command. The peaceful privilege of the American army has in uniting with the gallant soldiers and loyal people of France in acclaiming them on their national holiday our own devotion to the same high ideals."

**REF CROSS START WORK.**  
PARIS, July 13.—The American Red Cross yesterday began establishing canteens, restaurants and dispensing at railroad stations where American troops will pass going to and from the front. The canteens will supply coffee, bread and sandwiches.

**ARGENTINE MAY  
RESENT U. S. ACTS**  
BUENOS AIRES, July 13.—Relations between the United States and Argentina are cause for considerable uneasiness, according to an authoritative source today.

Argentina does not understand the export licensing plan promulgated by President Wilson. There is a disposition to regard it as an unjustifiable step. Certain elements here have not yet lost the irritation against the United States which they developed at the time Washington joined with London on opposition to Argentina's wheat embargo and practically put up to Buenos Aires an ultimatum that there would be no coal exported to Argentina unless there was some change in the wheat scheme.

The Argentine Senate was in session today. The United States embargo measure was the main topic of discussion. There was some consideration also as to what attitude Argentina would adopt as to American war fleets now in the vicinity of the republic's ports.

**BUMPS; SHOT**  
SAN FRANCISCO, July 13.—Arnold Miller of Battery B, California Field Artillery, now stationed at the Presidio, does not know whether he was the victim of a kidnapping or not this morning or whether he was himself mistaken for a robber by an innocent pedestrian. Miller was at Columbus avenue and Bay street when he bumped into a stranger. The man was angry and struck at him with a cane, and blow. Suddenly, the other drew a revolver and fired, the bullet piercing one of Miller's fingers. The man then ran and Miller sought treatment at the Letterman Hospital.

**Sound Kidneys  
Save Suffering**  
The hustle and bustle of modern life cause weak kidneys. Overwork and worry invariably create poison faster than the weakened kidneys can filter it from the blood. Pain in the back, nervousness and lack of ambition are the first warnings that the kidneys are inflamed and congested, and for these conditions Warner's Safe Kidney and Liver Remedy should be used for a beneficial action. For 40 years this dependable medicine has proved itself nature's provision for mankind against kidney disease and its oftentimes terrible effects. Here's an instance of its remarkable efficacy:

"Having been afflicted with kidney and liver complaint for a long time, I was induced to try Warner's Safe Kidney and Liver Remedy, and after using it for a time am now well and strong. I can unqualifiedly state that this medicine without any doubt saved my life and I can conscientiously recommend it to others similarly afflicted."—Clarence H. White, Battle Creek, Mich., U. S. A.

Warner's Safe Kidney and Liver Remedy contains no harmful ingredients and should be used when the kidneys need attention. At all drug stores. Sample sent on receipt of ten cents. Warner's Safe Remedies Co., Dept. 363 Rochester, N. Y.—Advertisement.

# DEPORTED I. W. W. AGAIN ON MARCH

(Continued From Page 1)

to Bisbee. They are angry at mis-carrage of their plans. The cattle cars loaded with I. W. Ws. were backed up a lonely siding at Hermans, the guards report, and the engine and caboose, bearing F. B. King, division superintendent of the El Paso & Southwestern and the train crew, started back to El Paso.

As the engine and caboose drew away the I. W. Ws. hurled oaths and jeers after the departing trainmen.

When the regular passenger train passed Hermans, the I. W. Ws. boarded it on their return home. At that time the I. W. Ws. were still in the cattle cars, cowed by guards and their arms.

No sooner had the passenger train gotten under way than the I. W. Ws. began piling off and jeering. It was at this juncture that the threat to burn the cars and hold up the next train was made. Some hurled rocks after the train. The spirit of revolt was to be fanned into flame with the leaving of the guards, the guards reported here.

According to railway officials here there will be no west-bound train through Hermans, either freight or passenger, until late this afternoon.

**PLANS MADE TO RESIST.**

According to the guards many of the I. W. Ws. may try to stop in Douglas en route back to Bisbee. Preparing for this, arrangements are being made here to resist their settling here.

Bisbee citizens, a thousand strong, are reported going to Osborne, east of Bisbee, to head the I. W. Ws. off. It was learned from the guards here today that only the judgment of court heads prevented serious trouble with the military at Columbus when Superintendent King of the El Paso & Southwestern was refused permission to detain the industrialists.

A roar of protest went up from the several hundred Bisbee guards, who were on duty at the switch in the dark, somebody yelled.

In an instant there was a chorus of assent.

The train had been stopped on the edge of Columbus. It was a black night and the Bisbee citizens favored detaining their prisoners' despite the refusal of Colonel Sikes, commander of United States troops at Columbus.

**BLOODSHED IS AVERTED.**  
At this juncture, as several guards were piling off the train to "dump" the I. W. Ws, Superintendent King came back.

"Don't do that," he cried. "It will mean bloodshed if you do. The military absolutely refuses to let these men detain here."

King then ordered the train to proceed to Hermans, where the I. W. Ws. were left early today.

While the guards were en route to Bisbee, one I. W. W. who succeeded in making his escape and entry into the town of Hermans, was discovered and was found sitting in a seat next to a guard. He was seized and hustled off west of Hachita, N. M.

San Francisco, July 13.—Governor Campbell's appeal to General Parker for Federal support in the situation has been received this morning, according to telephonic communication had with the capital.

**MAGAZINE IS GUARDED.**  
MIAMI, Ariz., July 13.—To "fight" the I. W. Ws. and bring them to the "bitter end," citizens of Miami and Globe are organizing today a "Loyalty League," following clashes between I. W. W. pickets and miners.

Indignation grew intense when Engineer Bert F. Auble, on his way to work with his trunk, furniture and supplies, intending to stay at the mine and save it from flooding, was turned back and jeered by pickets. I. W. Ws. seized the trunk and there was a sharp clash when deputy sheriffs regained possession.

When rumors became persistent that the powder magazine of the Miami Copper Company was imperiled soldiers were despatched there as guards.

Following meetings at which it was determined to stamp out the I. W. Ws. and bring them to the "bitter end," citizens of Miami and Globe began. The warrants charge rioting, violence, profane language and interference with county officers.

**PRIVATE CENSORSHIP.**  
SAN FRANCISCO, July 13.—Alleged tampering with service of the Western Union Telegraph Company by Robert Rae, general auditor of the Copper Queen mines and smelter at Douglas, Ariz., and H. H. Stout, known as "Captain" Stout, superintendent of the smelter, with the probe to the limit, Western Union officials here announced today. A report that the army had increased the censorship proved wholly untrue.

Rae and Stout, according to the Douglas manager of the telegraph company, held up yesterday for many hours despatches filed at Esbee and Douglas, describing the deportation of more than 1,000 I. W. Ws. from Bisbee. Reports forwarded to the Western Union officials in New York were that army authorities had imposed this censorship. These reports, it was said today, arose from the fact that "Captain" Stout wears a khaki uniform and the student officers will take up the study of signal communication, discipline under fire and methods of indicating to troops the location of the enemy. Camp sanitation and personal hygiene also are to be introduced into the course of study next week.

Although the German money influence is behind the copper mine strikes, so far as I know.

"The deportation will not affect the general situation. They cannot mine copper with machine guns or dig it with bayonets. The deportation was an outrage."

**TO TEACH FIRING**  
SAN FRANCISCO, July 13.—Battle fire training is the latest subject to be announced for the Presidio reserve officers' training camp. Beginning Monday, it was announced today, the student officers will take up the study of signal communication, discipline under fire and methods of indicating to troops the location of the enemy. Camp sanitation and personal hygiene also are to be introduced into the course of study next week.

Although the German money influence is behind the copper mine strikes, so far as I know.

# 23,060 IS DRAFT QUOTA FOR STATE

(Continued From Page 1)

red ink numbers corresponding thereto will answer the call to arms. The spot in which this gigantic gamble occurs is inspiring. Ranged along its walls are oil paintings of men of other days who directed the destinies of the nation at war or shaped its policies to keep in readiness for war.

**ORIGINAL LEVY.**  
As matters now stand the war department will have an original levy of 687,000 men—500,000 for the cantonment camps and the remainder to fill up the regular army and National Guard complements.

Every man of America's ten million eligibles will have a fair chance when the national army is drafted.

Provost Marshal-General Crowder is today going carefully over every step of the draft procedure with his corps of executive assistants. They are searching every rule and regulation for any possible loopholes through which one might take an unfair advantage.

Race, color or creed, no matter what, each American will know when he is drawn that he has been fairly drawn and that his service is required only after he has had a chance with every other man, whatever his position in life.

**LOCAL PROBLEMS.**  
Individual lack of patriotism on the part of the local exemption boards is the only possible manner of evasion of the wide sweeping demands of the draft. This has been provided by the selection of men of high repute for the exemption boards.

Reports received today upon the organization of the local boards indicated that the drafting may be done earlier than next Wednesday. Should all states report their organization by Saturday night, which now seems possible, it is likely that Monday will be the day set for drafting.

**QUOTA IS RAISED.**  
Advices received from Washington today have raised California quota of men to be supplied for selective draft service from 21,956 to 23,060. The increase is due to revised population statistics, each state, county and city furnishing two-thirds of one per cent of its paper population.

**BEAUTIFY THE COMPLEXION**

# PLOT IN ECUADOR

PANAMA CITY, July 13.—American agents as well as the American minister at Quito have begun an investigation of a revolutionary plot to overthrow the Ecuadorian administration, according to information received here today.

The conspiracy is said to be headed by the former rebel chief, Concha, supported by relatives of the murdered president, Alfaro. The movement is based upon pro-U.S. sentiment and is so directed against the government and is so directed against the government and is so directed against the government.

**WOMEN TO WORK**  
LOS ANGELES, July 13.—Women of Los Angeles as interurban car crews on the Pacific Electric railway lines is not so remote but that it may come to pass before the end of the year. This was brought out at a conference today between railway officials and the board of public utilities.

Shortage of men at present, to be made more acute after the draft, is likely to force such procedure.

The recent policy of the government, which is decidedly anti-American.

# FINNISH DIET TAKE STEPS FOR FREEDOM

PETROGRAD, July 13.—The Finnish Diet on Thursday passed the second reading of a bill virtually establishing Finnish independence. The introduction of the bill has created a serious crisis here, and N. C. Tcheldse, president of the council of workmen, and soldiers' delegates, has gone to Helsinki in an effort to settle the differences.

According to the newspaper Birzheviya, M. Lvoff's Socialist colleagues declare themselves in principle in sympathy with Finland's move. The premier and other ministers belonging to the cabinet party refuse, however, to allow Finland to determine her relations with Russia, insisting she must wait until the meeting of the constituent assembly. The Birchde declares it is impossible for Russia to tolerate Finland's move. The Birchde hints at armed interference, saying Russia is now about to make a last attempt toward a peaceful settlement.

# Californian Vividly Pictures Warfare Scenes on French Battle Theater Revealed

How the news of the American troops arrival in France was received by the people, how the villagers crowded around to read the arm brassards of the khaki-clad boys of the Mexican border and the advancing hospital units, how on still nights across the barbed-wire entanglements can be heard the music of a German band playing in a captured French town—such is the outer edge of the life which the Stanford unit of the American Red Cross hospital corps is seeing in France today.

Some of the glimpses of it reached this country again, through letters from Alan H. Nichols of Palo Alto, son of the superintendent of schools at that city, who is sending a regular series of communications covering his impressions to his parents. These letters are printed from time to time in The TRIBUNE and give a live, wide-awake American youth's viewpoint of war zone conditions. Two of these letters follow:

**CREATE EXCITEMENT.**  
April 26, 1917.  
We have now moved into another region and we create considerable interest hereabouts. I guess they haven't had Americans here much. There was an English section here once, and the people all learned a few phrases which they now use on us, such as "Good night," "How are you?" "What are you doing, sir?" and others similar to these.

Everywhere we go we attract a crowd, who fight for places to read our arm insignia and the Friends of France brassard and our various other signs.

At one little old village, overcrowded with soldiers, one of the crowd asked us if we were from America. "Yes," we said. "New York?" "No," San Francisco. Exclamation from our questioner: "Well, well, well! I lived there eight years myself." "Going back?" we asked. "D—d right!" This conversation from a well interested us, and we had quite a talk.

We brought in a little old soldier twenty years of age, who looked like George Smith. He was wounded but happy, and when I told him I was twenty also, he joked about my being so tall and his being so short.

For a few days we were quartered in a huge barracks. We have the parking business down fine now, and come streaming in in a line, turn off and line up side by side in two rows or a hollow square, so it looks pretty nifty.

**PACKING TO FINE POINT.**  
We have our packing and unpacking down fine, too. Within an hour of our arrival, we have all our stuff in our new rooms and beds in place. We make our beds on the iron cots, then all down fast to the cots with ropes, fold the cots up, blankets and all when we move, and walk off, or literally take up our beds and walk. One more load brings duffle bag and junk, and we are in or off as the case may be.

Many times I sat down to write and some fool thing broke it up. Once it was bursting shrapnel that called us to the window to watch a boche plane being driven back to Germany by anti-aircraft guns. Again it was a request to go for a malade somewhere, and then it was an order to move again.

The country is wonderfully beautiful here, and we have longer runs back and forth. It is quiet at present, so we are serving practically a whole sector by ourselves. If they ever start anything, they'll run the tails off of us.

**TOWN IN RUINS.**  
When I went for this malade mentioned above, I drove out a beautiful

road that eventually ran into a captured French city, and then on to one which the Germans have never yet captured. At the village where my parents and I had the road barricaded, and "interdite" (closed). The town is all shot up and nearly abandoned. The road is screened artificially with brush and burlap in high places. The lines of the Germans are only four kilometers away (about two and a half miles), but one would never know it in this underground, hidden warfare. All the hills look the same—Boche or French.

We moved from the barracks a while ago to a school building in the same city. Before moving, I had a nice experience with water in my gasoline. I stalled at the hospital and had to run back and get Joe to come and take my blessing while I waited for my engine. I could see great gobs of water in the bottom of the tank, so I had to drain off, straining through a wire gauze filter—all we are furnished with—at least three times until I got out. With a job, I started again, and a sprung radiator are about the worst afflictions. My radiator is still all O. K.

"The college" (school building) where we are now quartered is simply exquisite according to our estimation. Also, there is a big back yard and a garden, with trees and flowers and walks. They still hold school for the younger boys—ten to eighteen years about—and these boys are around most of the time in their coats and breeches and brass buttons. We even have a big garage for all our cars, a workshop.

Third floor, left wing, college. Somewhere in France, May 3, 1917.

I have your letter of April 3 and 4, with something of the feeling there must have been in the United States just before and just after the declaration of war. I am glad to see it didn't affect my mail. Nothing is over here, and here we are between the United States and Germany has been expected so long, that the actual declaration caused very little excitement. Of course in Paris, the flag was placed among the groups of allied flags and was flung individually all over Paris.

When the Frenchman told us of our old place, we all gave a long yell, and a few nights later, Muhr read a letter of fine phrases about the United States, liberty, freedom, etc. In French, from Generalissimo Nivelle to all the armies. We produced a loud skyrocket yell for Nivelle and the allies which astounded and surprised all the Frenchmen. Muhr also read a letter from Capt. Andrew, head of the ambulance service, saying that probably, armies would not be sent, an even if they were, we should be doing the most good by staying right where we are in the ambulance service.

**CAUSES SPECULATION.**  
The polls increased their attentions to us a little, and began calling us "comrade," but in general the declaration caused more speculation than excitement.

One little artilleryman, who had lived in New York, asked me to know what I thought of La Follette. His opinion was that he is in German pay and is rotten in general, even though he has a French name! Men like him and Stone, and some others, make us pretty well ashamed over here.

Soon after the declaration, President Wilson's speech of April 2 was posted in full in great big sheets all over in the cities and towns. The Star Spangled Banner, has become quite popular and all the bands seem to be learning it.

In this region there are several regimental bands, with quite complete instrumentation, some good and some worse. At one of our posts we hear them practicing—the treadledees in one dugout, the um-pah, um-pah in another bombproof—and once in a while they play together. The leader has a fine bushy head of hair—good padding for his casque! Some of the boys looked in the other way, and the band played the Star Spangled Banner for them.

**PLAY AMERICAN ANTHEM.**  
At another post there is a much better band. They asked Fox how to play the anthem as the Americans do, as they had not played it before. Well, Fox knows something about music, and was game, so he took the baton and led them off. He made them smash out the opening bars, then "determination" in the high parts, then a big working up to a grand, slow, powerful climax. He beat furiously and they followed well, and he said they played it just as well as an American band.

When there is work to do, the band players are all stretcher bearers, or perform general Red Cross service as band leaders. If I thought I would have time on my hands, I would have toted along my big bassoon. Also, there are several other things I would have brought, such as pans and chemicals to develop and print my own pictures. Some of the boys are doing it now, and I could just as well as not.

I can't get used to projecting my thoughts a month ahead. When I figure it out, Stanford will be closed by the time this reaches you. I haven't yet had answers to my letters from the front. Four letters tell of junior week of spring vacation, etc., and that was a month ago. It's just getting warm enough here to leave off overcoats. Stories of Santa Clara Valley and its blossoms, written a month ago, are ahead of the buds on the trees here.

That's fine about the boys of Stanford going off into a training camp back in the hills, with packs and guns a-sling. I'll bet they looked fine and "new." The polls don't look very picturesque, but very business like. The American army pack would put the French to shame, I think. The French have slung all the way around them, little haversacks, canteens of all sizes, and then a knapsack on top of all these. When a horse gets out of the ambulance, it takes about four men to collect and carry in all the do-dads and little things he has slung all over him (more or less). The polls' shoes, though, can't be beaten. They are wonders.

**NEED FOR TRUCK DRIVERS.**  
We heard of the conscription bill being passed, but nobody seems to know what ages will be called. Platt Andrew was here and made a speech when I was on duty. Andrew's general idea, as reported to me, was that our army would need truck drivers and that we might be given a chance to enlist for this work as part of the American army to come for the duration of the war, going paid from the United States as if we were in the United States army. Andrew also suggested that we might possibly, in time, be commissioned as corporals of truck drivers! Most of us think it a sort of joke to be "promoted" to the truck driver position. Ed Gordon has the best one yet for an experience, and it speaks well for the democracy of the French army. Ed was in his car, when a French soldier walked up the road and stopped to talk with him. Ed said he looked very intelligent, and asked

# EMBARGO ORDER MADE BY ROADS

WASHINGTON, July 13.—An embargo effective immediately against all shipments intended for export of commodities named in President Wilson's recent export proclamation except when bill of lading is presented with a federal license number furnished, or authorized by the export council at Washington, was ordered today by the American Railway Association council on car service.

In general about the work, etc. After a while, Ed asked the soldier for a light, got it, shook hands, and drove on. A little later, a big limousine buzzed up, and there was this man all "dolled up," wearing two stars on his sleeve—general of the whole division.

"Important roads are screened with brush for miles artificially, so that no movements may be seen on the roads. However, there are several roads along which we run, that are bare and exposed for miles. The Germans have not fired there for a year and the French return the compliment. Several of these roads run directly into several captured French towns, but I guess that no vehicle has crossed certain portions of these roads for a long time. Our instructions read, "Do not delay on the road." We don't. It is a funny feeling to look up at the trenches hills, knowing that the Germans are there, perhaps watching the little Ford.

**WARTIME ACTIVITIES.**  
Curiously enough, the troops here are the famous and handsome "Blue Devils"—the chasseurs. They are all young and full of pep, and dress in dark navy blue uniforms. I took a photo of a mitrailleuse company of them resting, and after a time they passed me marching at a terrific pace and looking quite self conscious.

They say that on quiet nights one can hear a German band playing in one of the captured French towns.

In the outskirts of our town I saw a well made trench and about fifty or sixty feet (in depth) of barbed wire in front of it, all just within an orchard where none of it showed. The wires run in every direction, not like a fence, and through them all runs an open path for the defenders to go through when they leave the trench to attack. If you step back a few feet, you can't see at all where the open path zig-zags through the maze.

Our entertainers at the telephone posts are three in number. One we call Schmidt, one Hindenberg, the other Mephistopheles. Hindenberg is the cook, and a better one it would be hard to find. All three of them spend most of their time down there in the dark hole, one of them always at the switchboard. It is the "central" for all the region. Because of the deadening life, they act all the time the little kids, playing tricks on each other, joking and kidding, to relieve the monotony. Schmidt speaks good English and also about seven other languages.

The road to the hospital runs alongside a hill, and the valley looks a lot like our old Santa Clara Valley near Saratoga, only the fruit trees and grape vines. Old, white-haired wrinkled, bent men and women do the work, that would be hard for me.

We sleep in the house of a little old lady. My bed is about as deep as it is long. This is bad for me, but I manage it from corner to corner. We take our food to Hindenberg, and he cooks it along with the rest. Here is a sample meal: Fried eggs and bacon, army soup, beef steak, fried potatoes, cheese, jam, butter, sardines. The French always have wine, also.

# DRINKS HIGHER BIG APPLE CROP

LOS ANGELES, July 13.—An increase of 5 cents per drink in the prices of practically all brands of whisky and mixed drinks served over the bars was agreed upon, effective Monday, at a meeting of about forty saloon proprietors with representatives in the principal business section of Los Angeles.

SEBASTOPOL, July 13.—With the crop the heaviest and of the highest quality for many seasons, apple packing in this section is in full swing this week. The Graton and Forestville packing houses have been in operation for about ten days, and Monday the first apples were packed at Sebastopol.

CLOAK AND SUIT HOUSE

517-519 Fourteenth St.

Advances Showing of Women's  
and Misses Suits and Coats  
in all the new Materials for  
Fall 1917.

In spite of the advance in price of everything that goes into the making of a garment, we will again prove this season, as we have heretofore, that up-to-date and dependable garments can be bought without paying extravagant prices.

STYLE 101. FULL LENGTH COAT in the straight lines so becoming to every figure. Large hunter pockets give the peg effect. The collar is muffler style and is trimmed with contrasting stitching. This clever coat has a belt that confines the fullness and gives slender lines. Made of Gunny-burl in all the new shades of brown, taupe, and sea green. Price, \$21.50.

STYLE 107. A SWAGGER SUIT made of Poflin. This suit shows the Russian waist line—the coat is pleated from belt—collar and cuffs trimmed with Mole Broadtail. The belt is finished back and front with a stylish buckle. A chic flare skirt completes this suit. Comes in all shades. Price, \$25.00.

STYLE 105. THIS OXFORD SUIT is decidedly new. The jacket has a pleated back and plain front. The side pockets are finished with braid and buttons. This style is simply itself, but beauty is revealed in every line. Price, \$22.50.

STYLE 103. THE TAIL-EUR SUIT is here in the long lines that we all adore. This suit is made of broadcloth. The jacket is 36 inches long with a four-button front. Side tabs just suggest a waist line. The skirt is plain with a belt finish. Comes in a beautiful range of Fall colorings, including, navy, green, brown, field-mouse, wistaria, and black. Price, \$33.50.

RAID ON NEWARK  
NETS ONLY \$50

Burglars netted only \$50 in a raid on Newark last night after entering and ransacking six saloons and stores, according to Sheriff Frank Barnett's toll of the robbery. The places entered were Silvia and Perry's saloon, Rushin and Silvia's grocery store, Silvia, Munyan Company's general merchandise store, S. A. D. Buchanan's grocery store, W. N. Falsie's candy store and A. N. Fowler's candy store.

STRANGE HERMIT  
WHO LIVED IN  
TREE MISSING

UKIAH, Cal., July 13.—"Jake Sportsman," known to hundreds of persons in this vicinity as a picturesque recluse whose history has remained a mystery, has disappeared. For want of knowledge of his true name, residents of this vicinity named the man "Jake Sportsman." He lived in the hollow stump of a tree on the road between Ukiah and Lakeport. For a few months each summer he would tend sheep on the Lake County ranges, only to return to his stump house for the winter. Although always ready to talk to visitors, he confined his conversation largely to his own prowess as a hunter and never allowed the slightest ray of light to be cast on his real identity or past history. He was always accompanied by a hunting dog and maintained against all comers that he could understand what the dog was saying when it barked or snarled.

INDIAN REVOLT  
FOLLOWS DRAFT

ELY, Nev., July 13.—Ill-feeling which is said to have been smoldering in the tribe of Indians on the Deep Creek, Utah, reservation since two of the tribe were arrested for failure to register on June 5 for the selective draft army broke out last night, according to telephone information received here, when the Indians left the reservation, stole horses and were threatening settlers along Snake creek.

COMPLETES JOKE

LOS ANGELES, July 13.—Harry Lehr undertook to amuse his small brother by wearing a costume for a joke. That, a la Happy Holligan. The small brother "twiggled" the joke instantly. Thereupon the kidlet began to impersonate the cop who pinches Happy and attacked the milk man with a barrel.

MAY USE LASSEN

SACRAMENTO, July 13.—Superintendent H. A. French of the State motor vehicle department has been asked to use Mount Lassen as the distinguishing mark of the automobile seals for 1918. The California property is the 1917 mark, but has to be changed at the end of this year.

GEE DUCK SING,  
LAUNDRYMAN, IS  
WILDLY SOUGHT

While the local police hunt through Chinatown rookeries and back alleys for Gee Duck Sing—his bullet-riddled body or clues to his whereabouts—consternation and disorganization reign in the laundry. Charles Kee, brother-in-law to Gee Duck Sing, reported to the police that his boss disappeared last Tuesday night when the laundry proprietor left mysteriously with a brief word that he intended seeking new customers.

FLIGHT PLANNED

SACRAMENTO, July 13.—Charles Paine, secretary of the State Agricultural Society, announced today that an agreement had been entered into with Army Aviators Saunders and Crawford of San Diego to fly from that city to Sacramento for the opening day of the State Fair, September 6.

REFUSED PARDON

LONDON, July 13.—An Amsterdam despatch to the Exchange Telegraph Company says that according to Socialist newspapers of Austria, the Austrian government has refused to pardon the assassin of the late Emperor Franz Joseph.

BIRTHS

- CARDONA—May 21, to the wife of Joe A. Cardona, a daughter.

- GOUGH—July 11, to the wife of Earl William C. Gough, a son.
- DUNN—July 11, to the wife of Frank Dunne, a son.
- OSBORN—June 26, to the wife of John Joseph O'Connell, a son.
- WITTEIN—July 11, to the wife of Daniel Wittein, a son.
- KUNDEL—July 10, to the wife of M. Kundel, a daughter.
- NELSON—July 7, to the wife of Fred O. Nelson, a daughter.
- BARATO—July 7, to the wife of Antonio Sebastiao, a daughter.

NOTABLE DEATHS

RUFUS HILBRETH TRAYER. KINGSTON, N. Y., July 13.—Rufus Hilbreth Trayer of Albany, who was a United States court for China from 1900 to 1913, is dead of apoplexy.

DEATHS

- BROWN—In Two Rock, July 12, 1917, Mrs. Angeline Brown, widow of the late Dudley Chase Brown, beloved mother of Mrs. Rev. E. L. Britton and Mrs. Carrie B. Dexter of Modesto, Cal.; wife of Mrs. William Grinnell, Belmont, Wis., and Charles Pack, Brooks, Wis., a native of Connecticut, aged 82 years.
- SUHANAN—In Alvarado, July 12, 1917, Rachel Buchanan, beloved wife of the late John Buchanan, loving mother of Mrs. William W. Emery, the late John R. Buchanan and S. A. D. Buchanan, a native of Ireland, aged 52 years.
- CHERRY—In Alvarado, July 12, 1917, Mrs. Olive Cherry, beloved wife of U. K. Cherry, a native of Missouri, aged 32 years. Member of the Church of Christ.
- MELCHER—In this city, July 12, 1917, Bert Melcher, beloved husband of Mrs. Florence Melcher, a native of Maine, aged 38 years.
- STEINER—In Berkeley, July 12, 1917, Henry Steiner, beloved father of Mrs. J. H. Steiner, a native of Germany, aged 70 years.
- WAGLE—In this city, July 12, 1917, Jacob Wagle, beloved husband of Anna Wagle and loving father of Emil, August, Frederick and Lund Wagle, a native of Germany, aged 70 years.

THUGS RAID AUTO

CHICAGO, July 13.—Patrolman Peter Bouike was shot today by five bandits, who attempted to rob the money car of the Chicago City Bank & Trust Company of \$12,000.

SUSPECT IS HELD

Rudolph Kreiss, a young electrical worker who was arrested in Santa Cruz at the request of the local police has been brought back here by Inspector John Gennaw in connection with the cases of alleged embezzlement against Charles Zantzer and Linwood Rimassa, former employees of the Western Electric Company.

RECEIVERS ASKED

CHICAGO, July 13.—Receivers for the Pugh Stores Company, capitalized at \$20,000,000, and operating thirty-nine stores in six states, were asked in the superior court today. The complainants, Arthur B. Whitnah of Greenfield, La., manager of one of the chain of stores, and E. T. Whitnah, connected with the company in Chicago, both of whom are stockholders, allege that the company owes \$160,000, and has no cash to meet its obligations, though its assets of \$500,000 are subscribed to the company. James Pugh is president of the company. It is said the company can meet all obligations.

## DOORMAN DANCES

LOS ANGELES, July 13—Fifty summers and winters have passed since Bill Brenner, stage doorman of a local theater, first looked upon the big world, but that doesn't worry him a bit. So little does it worry him that he is about to enter the dancing ballet.

After months of practice under the dancers who have come and gone at his theater he has reached a point of proficiency where he feels himself ready for an engagement. And in a few months, report has it, the engagement will be offered him.

HINDU JAILED;  
WIFE, BABE  
HELPLESS

SAN FRANCISCO, July 13—The fact that Ram Chandra, Hindu leader and editor, indicted on a charge of plotting an insurrection in India, had been taken from his home by the federal authorities and forced to remain in prison while his wife and new-born babe lay helpless developed today. On learning of the situation a nurse was immediately sent to the Chandra residence by the Board of Health.

When Chandra was called in court an effort was made to have his bail, which now stands at \$25,000, reduced, but Judge W. W. Morrow, who is presiding, refused.

It appears that there is a new arrival in the Chandra household. The babe, a daughter, first saw the light of day after the filing of the true bills against her father. Chandra was ministering to wife and infant as well to another 18-months-old daughter when the marshals came and notified him that he was wanted. He was given a breathing spell, but finally the officials were forced to take him into custody.

G. B. Kar, a Hindu, a senior and secretary of the Students' Club of the University of California, who was expected to graduate Christmas, is also in jail in default of \$5000 bail. A reduction to this amount from \$10,000 was made this morning by Judge Morrow after it developed that overstudy had brought an illness which necessitated Kar's living in the open air. He had asked for a reduction of bail to \$1000, but to this the court would not consent.

It is understood that several University of California professors will go on his bond for the larger amount. He is also named in the Hindu plot indictments.

## You—Everyone!

can now learn to play the piano without years of drudgery

TREW'S COLOR MUSIC SYSTEM—a wonderfully simple method for learning to play the piano is being introduced in our Edison Studio.

—Third Floor.

Any one, even a child, can learn to play a piece of music written in Color Music in one hour. We can prove this startling fact in a few minutes.

## COURSE OF LESSONS

With every Color Music System is included a course of twenty lessons, prepared personally by Mrs. Eva Trew, inventor of color music, and pupil of the great Carl Reinecke.

With ordinary practice anyone at the completion of this course will possess a knowledge of the technique of music not gained in the regular way without years of practice.

Saturday is the last day of the  
July Clearance Sales

a round-up of sales items at deeper price cuts

Winding up the sale with REMNANTS ¼ to ½ Off—Silks, Dress Goods, Wash Goods, Embroideries, Laces, Trimmings, Linings and Drapery fabrics—lengths 1 to 6 yards

The short lengths of the season's favorite fabrics left over from the busy July Sales.

Final Clearance Days in the Suit Department  
Suits, Coats, Dresses

Former Prices to \$32.50  
\$10 Not a great number but all exceptional values. A final round-up sale of odds and ends that must be cleared away regardless of cost. Included are:  
Coats of velour, wool jersey and novelty silk in sport styles.  
Dresses of taffeta, jersey, crepe de chine and pussy willow. All good models. Just the thing to add to the vacation wardrobe or finish out the season.  
Suits of silk jersey, taffeta and some wool poplins. Both tailored and sport styles for dress and utility wear.

## Great Special Sale of Wool and Silk Dresses

Values to \$39.50  
\$18.95 The great majority of these dresses are new arrivals just received from our New York buyer and purchased to form a grand climax to the July Clearance Sales.  
To this lot we have added garments from regular stock that have been marked for less than cost for final eviction.  
Wool Dresses—\$18.95 In navy serge, some of them combined with satin, others braid or embroidery trimmed—all good quality serge and beautifully tailored. All greatly underpriced. A chance to save such as seldom comes.  
Silk Dresses—\$18.95 New crepe de chine, taffetas and georgette crepes in navy, black, gray, copenhagen and white. Some of them are dressy models for afternoon wear, others are in simpler styles that can be used for general service. All quite wonderful bargains.  
Values to \$39.50  
\$18.95

Clearance of Undermuslins  
One-Fourth to One-Third Off

Clearing out broken lines of dainty envelope chemises, gowns and petticoats—well made from sturdy muslins and attractively trimmed. Some are slightly soiled. A splendid chance to economize for these undermuslins will give a long period of wear.

Prices—77c, \$1.15, \$1.59

## Sale of Gingham Aprons

Neat, attractive all-over aprons made of checked ginghams—some in belted models. Broken lines cause these very low prices—23c, 39c and 59c.

Second Floor

## Tub Silk and Lingerie Waists—\$1.39

A regrouping of odds and ends for the last day of the sales. Every one of them has been in the sales at a much higher price. Final clearance tomorrow. In white and fashionable colors. Trimmed with large flat collars, some with frill fronts.

## Sale Silk and Voile Waists

HEAVY JAP SILK WAISTS, very smartly made in clever tailored styles. Cuffs fastened with good pearl buttons.

THREE STYLES IN VOILE WAISTS—All new, lovely and worth much more. One with large, square collar and the others with the new jabots and high or low collars. Dainty and stylish.

## Fancy Dress Waists \$3.95

Values to \$7.95. Of Georgette crepe and crepe de chine. In very pretty colors, some embroidered, others beaded and still others with large collars and frills, also plain tailored styles.

SAN PABLO AVE.—OPPOSITE CITY HALL

## Belgian Envoy Tells West Of Plight of His Country

Baron Moncheur and Party Cheered in Merchants' Exchange by San Franciscans

SAN FRANCISCO, July 13.—Before the eyes of the four distinguished visitors choosing the Belgian mission to the United States the scene of the subscription of the last quarter of a million dollars for the relief of Belgium homeless and suffering was re-enacted today on the floor of the Merchants' Exchange. A crowd of business men packed the room, cheered the members of the mission, cheered the bravery of the greatest little nation in modern history and showed the representatives of that nation with what enthusiasm they were ready to contribute their money for the cargo of the relief ship Camino was raised. The scene was staged in response to a request made yesterday by Baron Ludovic Moncheur, the Belgian ambassador here, where the generous gift was proffered.

The second day of the visit of the Belgian mission was quite as busy as the first—these men are not tourists on a holiday, but ambassadors with a message. American citizens are hearing from the lips of Belgians the words that stimulate devotion and self-abnegation for the cause of human liberty. And there is no pause in the delivery of this message.

VISIT PALO ALTO. This morning the members of the mission were taken for an automobile trip down the peninsula to Palo Alto, with a brief stop at the home of Mrs. William H. Crocker. Immediately upon their return they participated in the reception in the St. Francis Hotel for the members of the Belgian colony. From the St. Francis the visitors were taken to the Merchants' Exchange and then to luncheon at the Commercial Club. This afternoon at 5 o'clock they depart for Los Angeles making a stop en route at San Jose.

One of the figures in the Belgian party that has attracted particular notice is Major Osterieth, and this fact is due in great measure to "Nellie," a dog that always is close to him. "Nellie" has served time in the trenches and has been twice wounded. She has been the pet of hundreds of soldiers, and since Major Osterieth left the battle front she has been his constant companion.

The mass-meeting last evening in the Exposition Auditorium was electric with the sympathy of Californians for the stricken Belgian nation. It was a typical San Francisco audience, thrilling with the typical Western enthusiasm, and it voiced in ringing cheers the welcome of the whole city. Baron Moncheur was the speaker at the Exposition Auditorium, painting a vivid picture of the present condition of the little nation, beaten to its knees, starved and tortured, but undefeated and undaunted while life endures. He said in part:

"Had it not been for the wholehearted and generous help of America and the devotion of H. C. Hoover and his splendid group of assistants, I might have told you of how Belgium died. Belgium will never forget America's share in averting this horrible calamity and enlightening the burdens and sorrows of our civilization. I know of no better way of showing our gratitude than by telling you of our simple story, in the hope that you may never be called upon to face what we are suffering from. I know of no better way of serving as a useful warning to guide you in the struggle you have entered upon."

TRAGIC SIGHT. "It is at the same time a tragic and splendid thing to go in one of the supply kitchens of Brussels, where more than half of the total population is fed, to see long lines passing of thick soup and half a loaf of bread."

**Complexion Lotion!**  
Use Fresh Lemons and Strain Juice

Any grocer will sell you two fresh lemons and your drug store will supply you with three ounces of orchard white. Put these in a bottle and shake well. Here you have a whole quart of the most wonderful lemon lotion at about the cost of one must pay for a small jar of the ordinary cold cream.

Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove skin blemishes as freckles, sallowness and tan, and is the ideal skin softener, smoother and beautifier.

Read by day this sweetly fragrant lotion protects the skin from the effects of the weather and prevents roughness, redness, chafing and smarting. At night it works in the pores while you sleep and is intended to bring a freshness and peach-like beauty that wins envy and admiration.

Just try it! Make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It naturally helps to whiten, soften, freshen, and bring out the roses and beauty of the complexion. It works so wonderfully on rough, red hands. Try it and see for yourself.—Advertisement

**FRECKLES**

Don't Hide Them With a Veil: Remove Them With the Othine Prescription.

This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by any druggist under guarantee to refund the money if it fails.

Don't hide your freckles under a veil, set an ounce of othine—double strength—and remove them. Even the first few applications should show a wonderful improvement, some of the freckles vanishing entirely.

Be sure to ask the druggist for the double strength othine; it is this that is sold on the money-back guarantee.—Advertisement

**MAYR'S**  
Wonderful Remedy for STOMACH TROUBLE

One dose convinces. Osgood's Dept. Drug Stores and other reliable druggists.

MAJOR OSTERIETH and "Nellie."

through, receiving each one a ration to sustain life for twenty-four hours. Here you find the people of all conditions and classes: the beggar, the priest, the working man and those who before the war were comfortably off but are now reduced to penury. You see the wives of officers who are fighting in the Belgian army, priests, sisters of charity, in fact every class that Brussels can show. It is not a line of beggars, they all are self-respecting, clear-eyed citizens. They all know that they are accepting help only while it is vitally necessary and they fully intend some day to repay the obligation which they now assume.

"According to the latest information received by my government, it appears that, although seven and a half million dollars a month are spent in sending foodstuffs into Belgium, the situation becomes more pitiable day by day on account of the diminution of the natural resources of the country."

## FRENCH PLAN FOR FALL OF BASTILLE

Of particular significance this year will be the big annual celebration commemorating the fall of the Bastille, in which the various French colonies of the bay district will participate on the night of Saturday, July 14, at the Civic Auditorium in San Francisco.

The affair will be staged under the auspices of the French societies and organizations of San Francisco, will be in the nature of a big patriotic concert and demonstration, at which accommodations have been provided for thousands. While many faces formerly prominent on this occasion, will be missed this year owing to the great number of French who have responded to their country's call, there will be a considerable number present.

It was originally intended to have the members of Belgian Commission, who are touring the country and are at present in San Francisco, as the honored guests on that occasion. The commission's itinerary would not permit of this, however, and the celebration will be conducted without them.

A considerable number of the local French colony are to take part in the program of entertainment. Addresses by Mayor James Rolph, Jr., French consular representatives and the other distinguished Frenchmen will be given during the evening. The celebration itself will be in the nature of a combined French and pro-American demonstration. A brief memorial observance for the heroes of France will also be held.

There will be a large orchestra under the direction of M. V. Hue-Paris and the early part of the evening will be devoted to literary exercises, the audience and speakers being welcomed by President of the Day S. J. Brun. M. Julien Neltner, consul general of France and a chevalier of the Legion of Honor, will deliver an address, as will also M. James Rolph, Jr., Hon. Edward Robson Taylor and Raymond Benjamin, representing Governor William D. Stephens. M. Georges Tessier will give a recitation, "Le Retour," and a concert will follow, participated in by many vocalists and instrumentalists of note. Reserved seats will range in price from 50 cents to \$1.50 and boxes will be \$50, \$70 and \$100, and seats may be obtained at H. C. Capwell's and Kahn's.

## GOING TO FIGHT

Among the British young men who will sail tomorrow afternoon for Vancouver, Canada, to join the Canadian army for service at the front, will be James B. Podger, formerly of this city and now of 2322-A. Haste street, Berkeley, and Charles Richard Rogers, of San Francisco, both of whom are employees of Blake, Moffitt and Towne, San Francisco. William Charles Rogers, a brother of Charles Rogers, an employee of the same firm, recently joined the Coast Artillery of the United States Army.

James Rogers, who came here from Broughton Ferry, Scotland, more than three years ago, has two brothers in the British army, one of whom saw service on the Gallipoli Peninsula and is now in Egypt. He is a son of Mr. and Mrs. A. Rogers of Broughton Ferry, his mother coming to this country less than a year ago. Charles Rogers came to San Francisco from near London, England, four years ago. Both enlisted at the British recruiting office in San Francisco.

They were given a send-off dinner and theater party last night by a number of their office colleagues.

## BILL IS PROTESTED

Protesting the payment of a \$7 taxi bill for a ride from Berkeley to Oakland, Charles Spencer, a salesman of San Leandro, spent the night in jail upon complaint of R. Casero, driver of the taxi. Spencer told the police that instead of being taken over a direct route he was ridden around for a long time. The matter is being adjusted between the parties.

## FAMILIES TO BE AIDED BY PLAN

The care of the families of soldiers and sailors in the service of the country in war time, is one of the functions of the Red Cross. In order to carry on this work to the best advantage, Mrs. M. L. Requa, chairman of the committee on civilian relief of the Oakland chapter, has established an office in the rooms of the Oakland Chamber of Commerce, corner of Thirteenth and Alameda streets. This office will be in charge of Mrs. K. Girard and will be open daily from 9 to 5 o'clock.

Those whose bread winners have joined the army or navy, who call at this office, may be assured of consideration and of the belief of those in charge that in extending any assistance the Red Cross is but doing its duty to the country.

## MARRIES; TOSSED IN BLANKET; NOW IS IN HOSPITAL

RICHMOND, July 13.—"Never again," murmurs Private Arthur Allen of H Company, Second Regiment of the National Guard, as he lies in the camp hospital near Martinez suffering from a broken shoulder blade—meaning thereby that the next time he marries he will make due announcement of his intention beforehand. The broken shoulder blade is the result of a blanket-tossing he received at the hands of his comrades when they learned that he had been secretly married to Mrs. Mae Hardy, daughter of W. H. Lowy, station agent for the Santa Fe at Glen Frazier.

Allen and Mrs. Hardy slipped quietly away to San Francisco a few days ago and were married in that city. Despite their efforts at secrecy the news leaked out. When Allen's comrades heard of it they "chartered" the bridegroom by taking him from his tent and tossing him vigorously in a blanket.

Allen will be absent from guard duty for several weeks, and his bride has given up her duties as a nurse in the county hospital to devote herself to his care and comfort in the camp hospital.

## AUDIT BOOKS OF RED CROSS

The final audit of the accounts of the Red Cross war fund committee was made yesterday afternoon and the books turned over to the local chapter. The total amount collected in cash and pledges was \$105,872.93. The July installment of pledges is now due and those who have not yet paid the installment are requested to mail check drawn to the order of "Red Cross War Fund" to Oakland Chapter, American Red Cross, Fourteenth and Webster streets, Oakland, Cal.

his tent and tossing him vigorously in a blanket.

Allen will be absent from guard duty for several weeks, and his bride has given up her duties as a nurse in the county hospital to devote herself to his care and comfort in the camp hospital.

## Pretty Features Prepared For Irish Rally at Shellmound

Four young women who will take part in the championship Gaelic dancing contests at the Irish Picnic in Shell Mound Park Sunday. From left to right, they are: BESSIE ALLEN, PEARL HICKMAN, EILEEN KEOHANE and CLARA COYNE.

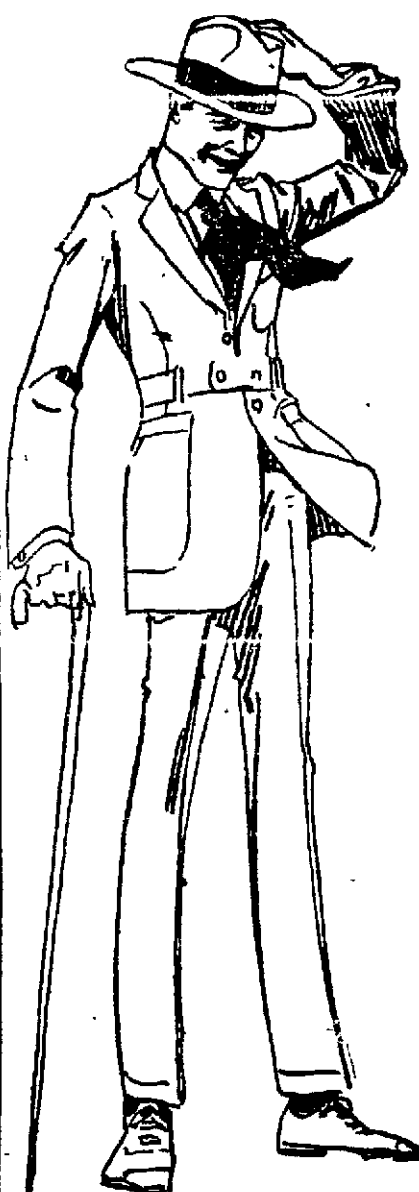

Shellmound Park will be the scene next Sunday of what is scheduled to be the banner Irish gathering of the year. The affair will be conducted by the original Gaelic Dancing Club of San Francisco, an organization unique in Irish circles, which for many years has kept alive in this country and spread the picturesque folk dances of the Emerald Isle. The big feature attraction will be the western championship competitions in Gaelic dancing. Celebrated men and women and juvenile experts in stepping have entered from many of the States this side of the Rockies. Oakland and San Francisco will be well represented in the contests by a galaxy of graceful colleens and lads.

Several surprise attractions will round out the program. Judging from the widespread interest being evinced in Irish circles in the big Gaelic event, the attendance record at Shellmound Park is threatened. P. J. Kelleher is chairman of the committee, which includes Dan Cotter, Eugene McAuliffe, John Breden, William O'Brien, Patrick McAuliffe, John Walsh and James Barry.

## Your Fall Suit

may be bought to greatest advantage right now while stocks are at their very best.

So inseparably is quality associated with S. N. Wood & Co. clothing that when you think of one you unconsciously think of the other.

Though everything that enters into the making of men's clothing has increased in cost, we are still maintaining former prices—and our usual high standard of material and workmanship.

So—name your style—belted, round, like the picture, Pinch-back, English semi-English, or conservative. We have them all.

4TH & MARKET - SAN FRANCISCO

## INTERURBAN JITS DUE FOR PROBE

SAN FRANCISCO, July 13.—Autobus and interurban jitney lines operating throughout California must appear before the State Railroad Commission at two hearings, July 25 and August 8, in connection with an inquiry into time schedules, regularity of service and the safeguarding of passengers through the filing of bonds and insurance. A recent decision of the Supreme Court has placed all lines of automobile buses save those concerned within the limits of one municipality under the jurisdiction of the commission. This morning announcement was made that the first hearing would be held in Los Angeles, July 25, and the second at San Francisco, August 8.

## SHIP PLANT FOR HARBOR SOUGHT

Prompt measures will be taken by the city authorities to act upon the application of the Union Construction Company for a twenty-five-year lease of 660 feet frontage on the city lands in the Key Route basin, the Council, following a conference with the company officials last night, having instructed City Attorney Paul Morf to draw up a tentative lease. When this has been done another conference will be held and the terms of the lease thoroughly discussed before the matter is put before the Council for adoption. The concern is seeking lease of approximately thirty-two acres on which to construct a big shipbuilding plant and marine ways. It is estimated that the city will receive a rental amounting to between \$15,000 and \$20,000 a year besides the taxes on improvements. The rental would be based upon 6 per cent of the value of the property. The tentative plans for the leasehold are that it be located about midway between the Alameda Brothers' lease adjoining the Southern Pacific mole and Seventh street and the northern boundaries of the city's property.

## TO SPRAY TREES

BERKELEY, July 13.—It is the patriotic duty of every fruit-grower in California, declares the University of California, to spray his fruit trees during the coming year in such a way as to reduce to a minimum losses from insects or disease. Any fruit grower who wants to know when and how to spray, and what spray to use, and how to protect his fruit, can learn how by attending the farmers' short course at the University Farm at Davis from September 24 to November 2.

## A VIOLENT DEATH

SEATTLE, July 13.—Three cows dragging G. H. Brown, 74 years old, on the end of a rope, are responsible today for Brown's death. Brown was driving the cows in the outskirts of the city when he stumbled. The cows became frightened and fled, dragging Brown. His head hit a manhole cover, fracturing the skull.

## TO STOP TRAINS

SAN FRANCISCO, July 13.—The railroad commission has authorized the Santa Fe Railway Company to discontinue two trains running between Los Angeles and San Diego. These trains, Nos. 70 and 77, were running only to accommodate passengers to and from San Diego.

## BOMBS FOUND

CHICAGO, July 13.—Two huge iron bombs, heavily loaded with sulphuric acid and with fuses burning rapidly, were found by the police today near the Chicago stockyards. Federal agents are investigating.

### MOTOR INCREASE

WASHINGTON, July 13.—In 1916 there were 1,067,332 more motor cars registered in the United States than in 1915, an increase of 43 per cent. The gross total of registered cars, including commercial cars, was 3,512,995; the number of motorcycles registered was 250,820.

States collected in registration and license fees \$25,865,369.75. Of this \$23,910,811 was applied directly to construction, improvement or maintenance of the public roads in 48

### CRITIC IS DEAD

LOS ANGELES, July 13.—Maitland Davies, dramatic critic of the Express and Tribune and formerly well known as a singer, is dead at a hospital here today after a brief illness. He was 45 years old. He was a brother of the late Acton Davies, for many years dramatic critic of the New York Evening Sun. Davies was born in Quebec, Canada.

States, according to figures compiled by the office of public roads.

### FAMINE IS NEAR, SAYS VROOMAN

DENVER, Colo., July 13.—"We are face to face with the war's most dreadful handmaiden—famine," declared Carl Vrooman, assistant secretary of agriculture, in an address here at a food production mass meeting, held under the auspices of the extension service of the department. "Not as a people, of course," he added, "for we can always hope to feed ourselves, but as one of a sisterhood of nations, we are face to face with famine right now. We may not be starving ourselves, but millions of our fellow men are."

Vrooman said England had found the war one of food rather than men or munitions. He discussed the appropriation of seven billion dollars as a war fund, which meant that the United States "had underwritten victory."

"In this war of liberation we hold the trump," continued Vrooman, "and when it is played, it will be a bread card. I like to think that we are engaged in this great food production campaign, not merely with a view to feeding ourselves, our armies and the armies of our allies, but with a view to feeding ultimately the starving millions of the Central Powers. Would it not be a fitting thing, a thing as typically American as the marksmanship of our naval gunners, if, after the war, we were to furnish bread to Prussia and Bavaria and Austria, as well as to stricken Poland and devastated Serbia."

"Our opportunity and mine have come to do something eternally worth while—to make some sacrifice for high, spiritual ends. Let us each do this part promptly."

### TWO ARE KILLED

GREAT FALLS, Mont., July 13.—Henry Hall Johnson, a prominent architect of this city, formerly of Seattle and Joyce McDermott, a 12-year-old Helena girl, were killed when Johnson's automobile turned over on the public road between Helena and this city. Johnson had as his guests the girl and three men, of whom two, A. J. Breitenstein, secretary of the Great Falls Commercial Club, and R. J. Stallman, were badly bruised about the body and are now in a hospital at Cascade. The girl was killed instantly and Johnson died before medical aid could be obtained. Johnson leaves a widow in this city and two children in Seattle.

### TOWN IS RAIDED

LAREDO, Tex., July 13.—The entire garrison, numbering thirty men, at Laredo, State of Tamaulipas, Mexico, was killed by fifty bandits at daybreak, June 28, according to information reaching here. The town then was looted and burned. Several civilians also are reported to have been killed including the mayor. The garrison was asleep when attacked.

### BURGLARY CASE IS WIPED FROM COURT RECORD

REDWOOD CITY, July 13.—The burglary charge against Edward Carroll, San Francisco draftsman, who came into this limelight one year ago when his wife was about to poison herself and two babies because of impending starvation, was dismissed by Superior Judge George Buck on the motion of District Attorney Franklin Swart.

Swart assisted Carroll in getting a position as draftsman. The district attorney reported to the court that Carroll now is prosperous, earning \$300 a month, and that he is considering acceptance of a position in Seattle at \$250 a month.

Carroll was arrested following a holdup at San Mateo. He confessed to the robbery of a man who sought to steal his wife and children were starving. He started the district attorney with the declaration that his wife had entered into a suicide pact to slay herself and babies if he were unable to obtain work.

### FARMERS ASK CHINESE LABOR

SACRAMENTO, Cal., July 13.—The dark shadow of the question of Oriental labor has again crossed the council board of the State Council of Defense. This time the question comes from Imperial county, where the farmers have joined together in a petition to the council of defense asking permission to import 2000 Chinese laborers to that section.

No official action has been taken by the council, and it is understood that none will be taken beyond a refusal to accede to the wishes of the Imperial Valley farmers.

It was stated yesterday at council headquarters that there existed no labor shortage in the Imperial Valley, according to the estimates of the farmers themselves, made recently. There is a probability of a shortage later in the season, when the cotton-picking begins, but the council of defense believes that it will be entirely feasible to handle the situation with the present available labor forces of the State.

### Calomel Users! Listen To Me! I Guarantee Dodson's Liver Tone

Your druggist gives back your money if it doesn't liven your liver and bowels and straighten you up without making you sick.

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you may lose a day's work.

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with your bile, crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight.

Here's my guarantee—Go to any drug store and get a 50-cent bottle of Dodson's Liver Tone. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine, entirely vegetable, therefore it can not slobber or make you sick. I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.—Advertisement.

## Kodaks

Our Kodak department is well equipped to supply every kodak need. Don't go on your trip without one if you would have the full pleasure of a vacation.

## Oceans of Hot Water For Every Need

Bothersome coal heaters and reservoirs and the old slow-going kitchen kettle are gone! And with them all uncertainty and bother about hot water have departed.

Any home can now have year 'round hot water—enough for every need—as easily as you now have light in the evening.

### USE AN Automatic Gas Water Heater

Here is one of the wonders of modern ingenuity—a device that vies with the phonograph in the magic of its work.

Think of it! A mere turn of any hot water faucet automatically heats fresh water instantly—while it flows—and delivers it steaming hot for your use.

Any instant of night or day—summer or winter—whenever the need occurs—that instant the exact amount you require is at your command.

### No Need to Stint!

#### Ten Gallons for One Cent

Your cold water supply is the only limit to Hot Water. Bathe, shave, wash dishes, use the laundry—one at a time or all at once—there's always enough for all. And it costs only one-tenth cent a gallon. Cheapest hot water in the world.

Why forego the delights of this great blessing? Learn how reasonably you can have Hot Water Service in your home.

## EXPERT SURVEY OF OAKLAND HARBOR.

The time has arrived when an expert and intelligent commercial survey should be made of Oakland's splendid harbor and a comprehensive plan submitted. At the present moment a number of important industries are seeking locations. A policy should be immediately determined upon and strictly adhered to. This applies particularly to the western waterfront.

The city is building for the future. It may be found desirable that certain industries be located in one section and others centered in a different locality. There are many other considerations. It must be admitted that the city has been proceeding somewhat blindly. When industries are once located it is then extremely difficult to adopt any comprehensive plan. Precedents are established which are not easily set aside. If a lease is granted to one line of industry in a particular section it is almost impossible to refuse a lease to a similar activity.

Some time ago the harbor committee of the Oakland Chamber of Commerce went on record in favor of the employment of an expert to make such an admittedly necessary survey. The difficulty of securing the services of a competent man was recognized. At a recent meeting of the same committee, Commissioner Morse, head of the department of public works, offered the same suggestion. It is understood that Mayor Davis has spoken favorably of this procedure. The best available talent should be secured. A cheap man would be the most expensive. Political considerations should be eschewed. This suggestion should receive prompt attention. THE TRIBUNE believes that no move would prove of greater benefit to the city of Oakland at the present time.

## THE COST OF SUGAR.

In a report entitled "The Cane Sugar Industry," issued by the federal Bureau of Foreign and Domestic Commerce, the cost of producing cane sugar in the United States and its possessions is compared to the cost of the Cuban product with interesting results. The report covers 462 pages and is given over largely to a discussion of the cost of producing sugar and is the first thorough study of conditions in the competing sugar regions that has ever been published. A brief analysis of the figures show that 49 percent of the total sugar consumed in the United States is produced in seven of our Western States, two Southern States and the insular possessions. The remaining 51 percent comes from Cuba and other foreign countries.

According to the government investigators, the average cost of producing cane sugar in Hawaii during the normal crop year 1913-14 was \$44.59 f. o. b. factory. In Porto Rico it was \$52.29, in Louisiana \$79.50, and in Cuba \$28.92. The average marketing cost per ton from factory to delivery in the United States was: For Hawaii, \$9.34, for Porto Rico, \$4.27, and for Cuba, \$5.46. Per pound of sugar delivered in the United States the average cost of the Hawaiian product was 2.697 cents, of the Porto Rican 2.328 cents, of Louisiana sugar 3.975 cents, and for the Cuban 1.719 cents, not counting the duty. With the duty added the cost of Cuban sugar delivered in the United States was 2.7238 cents. For 96 percent of all the beet sugar produced in the United States during the same crop year the average cost f. o. b. factory was 3.74 cents a pound.

In Hawaii the average cane production per acre harvested for mill was 43.92 tons, in Porto Rico 20.45 tons, in Louisiana 18.29 tons, and in Cuba 21.32 tons. For every acre of cane Hawaii produced an average of 10,992 pounds of sugar, Porto Rico 4550 pounds and Cuba 4912 pounds. Louisiana's highest average production during the crop years 1909-10, 1910-11, and 1911-12 was 2616 pounds of sugar per acre.

When the bureau completed its investigations, the cost of putting both cane and beet sugar on the market was under four cents a pound. Unless the productive cost has greatly increased since then the manufacturers and jobbers are taking handsome profits out of sugar. The retailer makes

little or nothing out of the sugar trade, for he nearly always sells it at or below his cost.

## THE PRESIDENT'S PATRIOTIC APPEAL.

President Wilson's statement, addressed to the coal operators and manufacturers, concerning prices to be paid by the government and the public during the war is fully up to the high standard of the various war messages of the chief executive. It is an appeal to the patriotism of big business that should prove effective. The President is not unreasonable in his requests. The statement is in good temper. Serious objection cannot be made to the policy thus enunciated by the chief executive:

A just price must, of course, be paid for everything the government buys. By a just price, I mean a price which will sustain the industries concerned in a high state of efficiency, provide a living for those who conduct them, enable them to pay good wages, and make possible the expansions of their enterprises, which will from time to time become necessary as the stupendous undertakings of this great war develop. We could not wisely or reasonably do less than pay such prices. They are necessary for the maintenance and development of industry; and the maintenance and development of industry are necessary for the great task we have in hand.

A careful reading of the statement conveys the impression that, while the President's message is in a conciliatory tone and offers the fullest opportunity for a voluntary compliance with the requests made, failure to heed the warning will prompt action by the President along lines far less conciliatory. The issue is now fairly up to the manufacturers of the United States. The result will be awaited with interest.

## TAMMANY, REFORM ORGANIZATION!

A striking illustration that times are changing is furnished by the action of the New York Tammany organization in advocating the municipal ownership of public utilities. Shades of William Tweed and Richard Croker! Soon we may expect a Tammany campaign for the initiative and referendum, woman's suffrage, the direct primary and civil service reform!

The sudden reform spasm of the Tammany organization makes one suspicious that there may be an Ethiopian in the woodpile. Can it be possible that some of the New York public service corporations desire to unload upon the city at a round figure? It has happened in many communities that the sudden desire of individuals and newspapers to take over public service corporations emanated from the corporations themselves. New York may be another case in point.

The northward march of the Southern negro seeking employment is becoming disquieting to the working people in those localities. The war has caused an almost complete cessation of immigration, causing a famine in unskilled labor in industrial centers in the North. The employment agencies discovered the Southern negro and proceeded to raid the territory he inhabits. The promise of a daily wage, double that received for similar service in the cotton fields, was alluring. It is claimed that more than 500,000 of its workers have been lost to the South.

Economic conditions have been disturbed. Unquestionably this was one of the real causes of the trouble in East St. Louis. This in no way palliates the recent outrage in that community. Southern cotton fields are being left without labor. The situation can only be met by an increase of wages throughout that section which will of necessity mean a readjustment in the price of cotton and other Southern products. This is but another evidence of the far reaching effect of the war on all American industries.

It has been pointed out that this war, its revolutions and alignments, will be likely to have far-reaching effect upon national hymns. Most of our hymns which have endured were born out of the American Revolution and have more or less reference to struggles wherein the triumph of the colonies over the mother country constitute a patriotic refrain. The nation from which we achieved separation is now our ally, and the sentiments which inspired our songs then are not now apropos. The French have made a fetish of the "Marseillaise," yet one of its inspirations was the overthrow of England, now a very necessary ally. The complete collapse of royalty in Russia has made the national air of the country obsolete. When the war is over nearly every nation may find it advisable to compose a new hymn. The German nation may not be an exception, as it is sure to end with an overthrow of Prussianism, which may awaken a new sense of freedom that will evoke a new anthem.

The "drive" to impress the desirability of food conservation upon the people individually is a good preliminary to the more comprehensive proceeding that shall correct the larger waste and curb the practices and commercial customs that tend to create artificial scarcities and thus raise prices. Food has been so plentiful, and up to recent times has been so cheap, that we have largely fallen into extravagant ways which we may not be fully conscious of ourselves. This "drive" is calculated to awaken us to a fuller realization of this fact. There should be a willingness to listen fully to all that any committee may have to say on this subject. Any housewife who may feel that the questioning and advice of food conservation committees is an intrusion upon private family affairs doesn't fully sense the importance of the national situation. We should all lend a hand—do our "bit"—and this food conservation affords us all a chance.

## NOTES and COMMENT

One thing the war is doing is to galvanize the near poets and would-be poets into new life. Just the connection between war and verse does not appear, but every newspaper editor can testify to the deluge.

Maximilian Harden is suffering from temerity. Though a German and in Germany he criticized the Kaiser's government. His paper was suppressed and himself bundled off to a military clerkship. This usage seems to be calculated to teach him that sacred things are not to be profaned.

Herr Zimmermann has been indicted. The officer whose function it is to serve the papers will have some job. The defendant is in Germany.

Another claimant for Goat Island. The two have turned to denouncing each other's genuineness, and maybe they can thus be kept busy. What they each seem to want is some one to wrangle with over their "claims."

Some inside facts from the Stockton Mail "It is an honest-to-goodness fact that the moment a man goes away from home, his women folk go on a jolly spree. (Now wait a minute till I get through!) They thank the good Lord, or Hoover, or somebody, that they won't have to do so much cooking while 'he' is gone, and go in for a regular debauch of tea and crackers."

Communities in Arizona and elsewhere are solving their troubles by deporting I. W. W. agitators. That may avoid these particular sections surcease, but it is not so likely to be a permanent cure. It is merely shunting them on to other communities which will then be burdened with the same problems. If it is the idea that they will be worn out by being compelled to keep moving, it is not likely to be realized. The I. W. W. is not dissuaded in this way.

The son of Hetty Green has at last married and eliminated himself and all his millions from the list. Just as his mother was a perennial inspiration for the paragraph on account of her riches, so the son was very frequently in print on account of his matrimonial elphibity. Incidentally it is interesting that the lady he married is 47. But then, the Colonel is 48.

The editor of the Fresno Mirror is undecided whether it is funny or serious: "A writer suggests that the Germans be routed by directing at them electrified streams of audial water under high pressure. There's nothing new in this. Edison suggested it years ago, and we all laughed at him. Now we don't know whether to laugh or not."

University wisdom at fault, according to the *Gustine Standard*: "The goat population of California ought to be multiplied many times over, declares the University of California. Which goes to show how very deficient is the knowledge of the average university professor. The trouble with California is the excessive number of goats."

## IT'S A GROUND-HOG CASE.

## SPIRIT OF THE STATE PRESS

Lemonade will be a luxury if the price of lemons continues to soar as it has in the past twenty-four hours. From quotations of \$2.15 a box to \$5.25 a box, wholesale, is quite a sudden jump and came as a surprise to the market men of Fresno. The price of lemons today will be from 35 to 40 cents a dozen, with the prospect of another raise very shortly. There is a scarcity of this necessary summer fruit.—Fresno Republican.

The State Board of Health, at its meeting yesterday, decided to take stringent steps to stamp out cerebrospinal meningitis in California. In the future all cases will be put under strict quarantine and an endeavor will be made to determine carriers of the disease. Hereafter it has not been considered necessary to quarantine to prevent the spread of the disease, but the fact that this disease has occasionally broken out in different localities has led to the belief that a strict quarantine of all cases might reduce the number.—Sacramento News.

## TODAY 20 YEARS AGO

The congregation of the First Methodist church of this city petitioned Bishop Goodsell asking that Rev. E. R. Dille be reinstated pastor when Dr. Kummer's term of office expired. W. H. Langdon was selected principal and Mrs. Lottie Lynch vice-principal of the San Leandro grammar school.

A petition was received by the Board of Education asking that a man be made principal of the Temescal school in place of the incumbent, Mrs. E. A. Wilson.

Judge and Mrs. Pringle returned from a six weeks' camping trip through Lake country. Professor Alban Putzker and Professor F. G. Hesse of Berkeley left for a walking tour through the Napa valley.

Rev. and Mrs. A. R. Olney of Watervliet, N. Y., visited with Mr. and Mrs. W. H. Code.

ON A SUN DIAL.  
Follow the Sun-as I, His favor keep,  
Nor fear the night that cometh: Sweet  
Is sleep.  
—Atlanta Monthly.

## THE JESTER

Useless Worry.

"I'm afraid," said the junior member of the law firm, "that we are causing our client unnecessary trouble."  
"O, that's all right," rejoined the senior member; "we'll charge him for it."—Boston Transcript.

Satisfaction.

"Jenkins claimed that I insulted him."  
"Did you give him any satisfaction?"  
"I guess so. He pounded me until he was tired."—Boston Transcript.

Some Danger.

He—"Nothing could ever come between us, could it, dear?"  
She—"I can't think of a single thing, unless I should happen to become engaged to some other man before we get married."—Pearson's Weekly, London.

Suspicious.

"Tell Mr. Smith I want to see him at the telephone."  
"I told Mr. Smith, sir, and he wants to know if you have a periscope at your end."—Baltimore American

## STOP AND SHOP AT SCHNEIDER'S

## PHOTOGRAPHS RULED OUT IN BOMB TRIAL

**TRIBUNE BUREAU EAST BAY, CALIF.**  
SAN FRANCISCO, July 13.—Despite their defeat of yesterday in their efforts to introduce a set of photographs into evidence, culminating in a rebuke and the plaster of a \$50 fine on the shoulders of Attorney Edwin McKenzie, members of counsel for Mrs. Rena Mooney endeavored twice during the first hour of the trial today to again place the pictures before the eyes of the jury. The tender was made by a roundabout method but Assistant District Attorney Louis Ferrari was on the alert and his objection was sustained by Judge Emmet Seawell. Another witness was produced and another offer made, and finally the prints were relegated into the court scrap-heap when Judge Seawell said, "I want you to lay those pictures on the desk, Mr. McNutt, and don't attempt to use them again."

Thereupon McNutt responded, "We must offer them, your honor. We can't anticipate the rulings of the court."

It seemed for a moment as though the clouds were about to gather again, but there was no contempt of court and the incident was passed by.

**FOR ALIBI EVIDENCE.**  
The effort of the defense was chiefly concentrated today on adding to the mass of alibi evidence already crammed the record.

The roof of the Elfers building on Market street was the chief scene flashed upon the wall, which has become checkered with photo enlargements reaching mammoth proportions seldom seen even in modern photography.

Wade Hamilton, of Redlands, Cal., identified four little films taken with a pocket camera from a building adjoining the Elfers structure. In three of them Mrs. Mooney and her husband are portrayed leaning far over and watching the procession of July 22. The photos have been enlarged until they stand near seven feet tall and four feet wide, but, nevertheless, Hamilton identified them and declared that three of them had been taken about 2 o'clock and one in which the Mooneys were not pictured about 13:30 o'clock.

Here the first offer of the photos objected to by the prosecution was made as they show Hamilton on the roof. He identified himself, but the objection was sustained. Judge Seawell said, in this connection "Three times yesterday these pictures were ruled out. The court does not see why he should admit photos taken an hour after the explosion when he has ruled out a moving picture taken but three minutes afterward."

**SAV MOONEYS ON ROOF.**  
Mrs. Gertrude Lawlor of 40 Puena Vista Terrace, who has been married since her first appearance as a witness in the trial of Warren K. Billings, testified that she had been on the Elfers roof July 22 and had seen Mr. and Mrs. Mooney and the latter's sisters, Mrs. Hammerberg and Mrs. Timberlake. She picked out her own figure in the photos taken by Hamilton. Her cross-examination was both long and vigorous. She admitted that she had stated to Detective Goff that she had

## Friday 13th Grips Universe 'Tis That Mysterious Jinx

Look out! Here it is again! For the second time this year the Jinx is abroad in the land, and a Spark even of the Boonum variety isn't it for a moment with a Jinx.

The Jinx is as invisible as a German pacifist, as omnipresent as air, as salubrious as Pulex irritans or the common flea, as unexpected as a submarine and as wicked as a wish. It is the original upsetter of applecarts and spoiler of beams.

The Jinx came into being on Friday, the Thirteenth, in the year 13. It celebrates its birthday when a Friday meets a Thirteen, and as it has a grudge against existence, its celebration takes the form of practical jokes on humanity. No one can hope to pass through life without suffering from a Jinx joke.

**'TIS "DING-AN-SICH"**  
There was a time when philosophers were exempt, for they had not discovered the Jinx in the cosmic ontology. But Kant came upon it one day and named it "Ding-an-Sich."

That was enough to irritate the most placid temperament, and the Jinx is anything but placid. From that time on, philosophers became as liable as anyone else to slip on banana peels.

After you have gone about all day with your fingers crossed, a horseshoe in your pocket and the ace of spades in your left shoe, you can draw a deep breath of relief tonight—provided

that nothing has happened to you. For the Jinx' next birthday will be in September, 1918, and that is a long way ahead.

**HISTORICAL FACTS.**  
The best authorities are the following historical facts.

Friday—Benedict Arnold was arrested. Columbus sailed. Pilgrim Fathers landed. George Washington born. Declaration of Independence written.

On the Thirteenth—Field day for Roman Emperors—Justin, Titus and Tiberius II dying naturally and Claudius being poisoned.

Many saints martyred—St. Eugenius, Bishop of Carthage; St. Hippolytus, St. Cassian and St. Dessant. Empress Maria Theresia born.

Handel, composer, died. General Bellairus died. Jean de la Fontaine, essayist, died. Philip II, of Spain, died. General James Wolfe killed in battle.

Pope Gregory XII, Plus III and Sextus IV, died.

Therefore, by doing certain things because this is Friday, and by avoiding other things because this is the thirteenth, one may hope to get through the day with tolerable safety. The point is in knowing just what to do, not what not to do.

## WHAT IS DOING TONIGHT

Red Cross rally, Glenview Imp. Clubhouse, 451 Park Boulevard, 8 p. m.

Stags whist party, Pithian Castle (night) Elks' jinx (day), Idora Park Reading, "The Music Master," Mr. and Mrs. W. M. Rasmus, Boulevard Congregational church, 8 p. m.

Alden Improvement Club meets 5175 Telegraph, 8 p. m.

Seventh Day Adventists camp meeting South Park, 12 p. m., 2 and 8 p. m.

Yprien—Musical farce, Baby Mine, Pantages—The Mother and the Flag, vaudeville.

Will King in The Summer Revue.

Hippodrome—In Old Kentucky.

T. & P.—Ann Pennington in The Little Boy Scout.

Bishop—The Squaw Man.

Kinema—Dorothy Fairbanks in Wild Girl.

Franklin—Dorothy Dalton in The Flame of the Yukon.

Lake Merritt—Boating.

Idora Park—Bathing.

**WHAT IS DOING TOMORROW.**

Fitchburg, Seminary avenue and Foot-hill Boulevard Improvement Clubs hold a joint dance for the benefit of the Red Cross, at Patterson's Hall, Fifty-fourth avenue and East Fourteenth street.

**WILL READ PLAY**

At the Boulevard Congregational Church at Fifty-seventh avenue, tonight at 8 o'clock a reading of "The Music Master" will be given by William Morton Rasmus and his wife.

## HOLLWEG IS BLAMED FOR RUSS STAND

**BERKELEY, July 13.**—To Von Bethmann-Hollweg and especially his declaration that Germany will consider no peace without annexation, Professor Alexander Kaun of the University of California has issued a declaration of the Russian people to continue the war to a victorious conclusion. Professor Kaun is instructor in Slavic languages regularly in the University of Chicago faculty. He said today:

"Intoxicated with the wine of freedom, the Russian extremists, led by Lenin, entertained the illusion that Germany would be willing to negotiate peace on the principle of no indemnities and no annexation, proclaimed by the provisional government under pressure of the council of workmen's and soldiers' deputies. The chancellor's haughty refutation of that principle disillusioned the most credulous pacifists and convinced the Russian revolutionary democracy of the precarious condition of their new freedom as long as Prussianism is not crushed. One need not be an optimist to predict that henceforth Minister Kerensky will be able to rally about him all the elements of the population in a united effort to support morally and materially General Brusilov's new offensive."

**HELD IN SUSPICION.**  
"Russian revolutionaries have regarded with suspicion the motives of the belligerents on either side, as they were voiced by the sleek-tongued diplomats. For this reason they demand a revision and restatement of the allies' motives and plans in accordance with the non-annexation principle. They have as little sympathy with the imperialist ambitions of Miluykov and Guchov as with those of the Italian and Rumanian statesmen. But in the declaration of the provisional government there is one point which lends the question of annexation an important qualification, viz. that peace should be concluded on the basis of the freedom of races and nationalities to determine their own destinies. A plebiscite, it is held, should decide the political allegiance of Alsace-Lorraine, the Trentino, Transylvania, Bohemia and other similarly disputed provinces."

But such a peace, the revolutionaries believe, based on the freely expressed wishes of the people, is a geographic and geographic units, may prove stable and lasting.

**NO FORMER STATE.**  
"It is evident, then, that the peace program of the provisional government does not imply a desire for a return to the status quo ante, that is, to the chaotic map of Europe as it existed prior to August, 1914."

The reading is part of the sacred dramatic art course being offered by the Boulevard Church.

## ALACRITY IS SHOWN HERE IN FOOD PLEDGE

By Edna B. Kinard.

The food administration drive in Alameda county is a peculiar one. No one may know the exact number of recruits which is brought into the big army of food conservators until the campaign is closed. Tuesday and the pledges have been officially counted. The "Get Behind Hoover" movement is purely a voluntary one, referred to each individual housewife for her personal sanction. But the honor roll which will be made up will tell a story in which the nation will either be tremendously proud or sadly disappointed.

There have been some doors slammed in the faces of friends and neighbors who presented the simple little document for acceptance or rejection. Now why? It is an "elastic card." It will fit the peculiar conditions in any household. For years the charge has been made that we of America, men and women alike, were wasteful and luxury loving. And mightily were the means which from time to time swept the country from the Atlantic to the Pacific and dire were the prophecies that were made. The time is ripe to prove the charge false, the wasteful and spendthrift families are really very limited. However, we must admit that there are old ways, and new things, which are constantly being discovered which make the business of eating and living simpler and better.

**ARE WE PROVINCIAL?**  
The average home manager is obliged by the limitations of her income or ambition for other things to watch her kitchen waste. It is her custom. Why then should she slam a door in a friend's face? Are we of Alameda county so narrow or so provincial that progress is something we must fight against? If by using substitutes, by trying out the latest methods which science has given, by joining in a nation-wide effort to take to starving peoples that which we have saved from our own abundance and yet feel no deprivation ourselves we can prove our loyalty, why not do so simple a thing?

Every home manager who is really managing, every woman who is offering variety to her family in breads and meat substitutes, every housewife who has made her own the receipts for "leftovers" is in truth "getting behind Hoover." If the experts can show her a still better way, or teach her what before she has not known, why should she hesitate in throwing her personal strength to the personal strength of the hundreds of thousands of women all over the country who are becoming a determining factor in the present history of the world?

**INSPIRING PURPOSE.**  
It is so simple. It spells so much of conscious power. And it is inspiring to join together in a solid wall of defense across the length and breadth of the United States of America for the magnificent purpose of conservation.

With the living of eighty-five long years, one charming woman, a home manager for a family of six who is solving three times a day the vexing problem of "what shall we have to eat?" has sent in her pledge in the "Get Behind Hoover" campaign, glad to affiliate in the progressive patriotism.

More than 300 young women, representing the exclusive families of the county and the state, from Mills College, have proved their loyalty by putting their signatures to the Food Administration. Seventy young girls in Miss Ransom's school in Piedmont, coming from the wealthiest of the households on the Pacific Coast have covenanted the keeping of the governments' advice as regards foodstuffs.

From Yosemite, and Tahoe, from little places all over the state there is coming to the food pledge editor's desk at The TRIBUNE scores of pledges, made voluntarily by women and girls who are of the privileged classes where the spending of a thousand dollars is as simple a matter as the spending of a quarter to others who have joined with them in performing their part of a national obligation. This is not a class campaign.

It is a womanhood drive.

## WILL SAVE HOMES

DANBURY, Conn., July 12.—Settlement of the famous Danbury Hatters' case without selling at auction the homes of 141 workers will be discussed this afternoon when the aged hatters, whose homes are scheduled for foreclosure next Monday, meet here.

The Loewe company, plaintiffs in the boycott suit, are understood to be ready to settle for a lump cash payment. The sum is unknown. Officials of the Hatters' Union are here to participate in the meeting.

## IS HELD AS A SPY

COLTON, July 13.—Accused of being a German spy, a German ex-soldier giving the name of Fritz Mueller was brought to Colton today by two United States army men who are en route with the prisoner to Salt Lake. He was arrested at Nogales where he had gone after his escape from Tucson, Ariz. Mueller admits being an ex-soldier of the Kaiser, but denied he is a spy. He hopes to be deported so that he can fight for Prussia, he said.

## TAFT & PENNOYER COMPANY

### Women's Summer Dresses

Feature Values at **\$5.95** Special Purchase Sale

# PRESIDENT TO OPPOSE BILL LIMITS

WASHINGTON, July 13.—In a letter to Senator Martin, Democratic floor leader, President Wilson today gave his views on food control legislation, advocating action along the line of the original bill for government control of foodstuffs and fuel only. He opposed the proposed substitution of Senator Gore and emphasized his desire for prompt action by Congress.

The President took the position that extension of government control of steel, iron, cotton, copper, wool, leather, aluminum and their products is unnecessary.

Regarding prohibition, it was also learned that the President is not in accord with the purposes of Senator Smith's amendment, proposed that the government buy all stocks of distilled beverages in bond. This provision probably will go to conference, and in view of the President's opposition regarding it, indications were that it would be eliminated by the conferees or a modification made.

Administration leaders in the Senate let it be known today that President Wilson is expected to use his influence to prevent limiting of the food control bill.

The President is opposed to the pending bill offered by Senator Gore, chairman of the agricultural committee, as a substitute for the House measure, and which would require the proposed government control over food and many other articles.

Herbert Hoover, food administrator, conferred today with Senator Chamberlain, in charge of the bill, before the Senate resumed debate. Hoover is understood to have strongly opposed the Gore measure, urging that it would virtually nullify the objects which the administration hopes to obtain and leave the government without substantial authority to meet conditions it is desired to remedy.

The President's views upon legislation needed probably will be conveyed through a letter to Senator Martin, Democratic leader, after he has studied the House and Gore substitute. It is expected that the President's letter will be sent early next week, in ample time for consideration before the Senate's final vote set for July 21.

**THREE ISSUES.**  
The President has before him the three bills now before the Senate. They are:

One—The House bill controlling only food and fuel but containing "dry" prohibition.

Two—The Senate agricultural committee's bill controlling food, fuel, steel, copper, lumber, cotton, wool and various other necessities, with whiskey prohibition only.

Three—The Gore substitute, containing the complete list of wheat and coal, and containing whiskey prohibition, with authority to the President to stop beer and wine-making.

It is expected that the President will submit to the Senate a resolution of the situation, which, as it now stands, will surely bring about the defeat of the bill. Sentiment in favor of the Gore substitute is growing because it contains a minimum of the things which have been causing the objection to the food control plan.

Senators today pointed out that agricultural department reports indicate the most abundant harvests in practically all the crops except wheat. If there is going to be an abundance of all foods except wheat, they argued, there will be no real necessity for controlling any of the important commodities except wheat.

The prohibition situation faces a new complication as a result of Senator Sheppard's declaration yesterday that he will try to force consideration of his resolution proposing an amendment to the federal constitution to make the nation entirely dry.

**WILL FACE TRIAL.**  
STOCKTON, July 13.—Maurice Gott, Ripon butcher, released by Stanislaus county authorities, who had held him in detinue for the murder of Earl Polly, Keyes banker, will now be placed on trial for the crime.

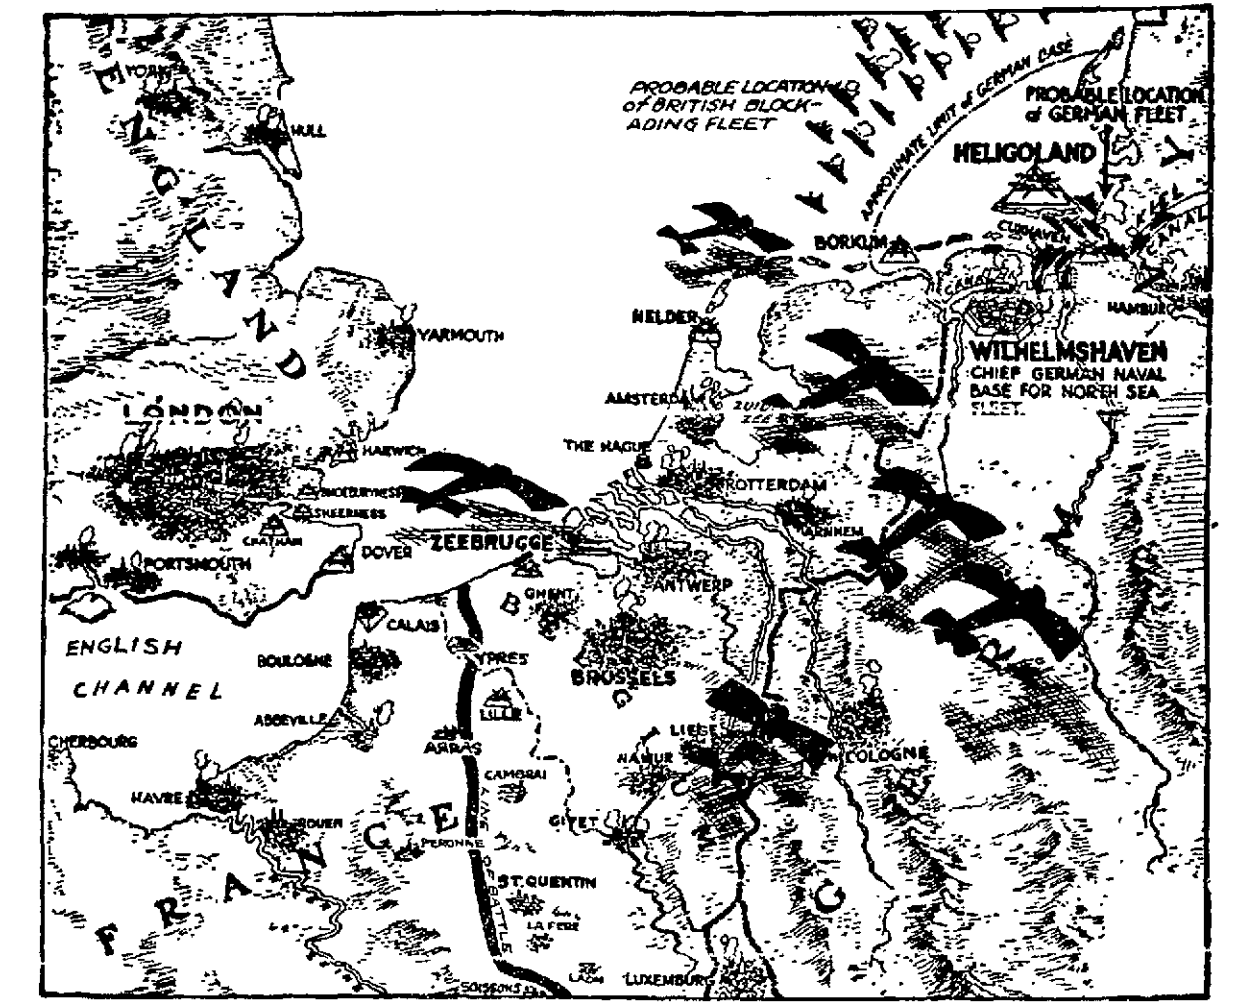

Gott, upon being released by the Sheriff Riicks of Stockton on a burglary charge. Today Sheriff Riicks of Stanislaus county took Gott to Modesto, additional evidence having been secured which the officers claim warrant them in placing Gott on trial, charged with the killing of Polly.

The shooting of Polly in the bank of Keyes was followed by the theft of \$300 of bank funds some three weeks ago.

# \$640,000,000 Aviation Bill Is Reported; U.S. Plans Aerial Blow

Battle line in France and German submarine and naval bases which it is proposed to destroy.

## WOMAN LEAVES FRIEND ESTATE

ALAMEDA, July 13.—Mrs. Annie Fortmann, an old-time resident of this city, is to inherit the bulk of the considerable estate left by her old friend, Mrs. Catherine Graham, who died this week and was buried today in St. Mary's cemetery, following funeral services at St. Joseph's church.

Mrs. Fortmann is willed the entire estate, save two \$500 bequests, one left to the Rev. Father Galvin of Oakland and the other to the Rev. Father Warren of this city. The estate consists of three dwellings and is valued at about \$7,500.

There are already rumors that a will contest will develop for Mrs. Graham left three sisters, Mrs. Wall and Mrs. Sarah Burns of San Francisco and Mrs. Della Pollock of Reno. Mrs. Graham first left \$300 to Mrs. Fortmann, \$200 to her attorney, R. B. Tappan, and the residue of the estate to Mrs. Anderson of San Francisco. This original will was dated May 17 this year. Last month, on June 25, Mrs. Graham had the name of Mrs. Maria Anderson stricken out and the name of Mrs. Fortmann substituted. She died on July 10.

Fortmann and the \$300 to her attorney and substituted \$500 each for the Rev. Father G. Galvin and Warren.

Mrs. Graham and Mrs. Fortmann were friends and neighbors for many years. Mrs. Graham was a native of Ireland and 70 years of age.

**CABINET TAKING PHYSICAL COURSE**  
WASHINGTON, July 13.—Four members of the cabinet, half a dozen heads of the other great departments and an endless number of assistant secretaries and such smaller fry, are starting on a campaign of physical training here under the direction of Walter Camp. At 7:30 a. m. they formed at the Washington monument and ran around the grounds.

Secretary Lane was one of the dearest leaders.

Then there were Secretary McAdoo, Assistant Secretary Roosevelt, Attorney General Gregory, Secretary of Labor Wilson; Mr. Crosby, assistant to McAdoo; Mr. Vogelsang, assistant secretary of the interior; Mr. Sweet of the commerce department; Mr. Post of the labor department; Mr. Kearns, assistant postmaster general; Mr. Davis, solicitor of the department of justice; Mr. Delano and Mr. Warrenburg of the reserve board; Thomas W. Mahany, assistant secretary to the President; Mr. Denman, the wooden-ship man; Mr. Davies of the trade commission and a score of others.

**CAMPS ARE SET**  
WASHINGTON, July 13.—Assignments of western National Guard troops to training camps already selected were announced by the War Department today as follows: Nineteenth Division, California, Utah, Arizona, Colorado, New Mexico and Nevada troops to Linda Vista, California. Twentieth Division, Washington, Oregon, Montana, Idaho and Wyoming troops to Palo Alto, California.

**ASK DRAFT PROBE**  
WASHINGTON, July 13.—The first investigation of the appointment of the draft exemption officers has been asked in the House. Representative Bruckner of New York today introduced a resolution requesting the Secretary of War to ascertain why the Governor of New York did not appoint to The Bronx exemption boards certain physicians recommended by the medical society of the county of The Bronx.

**GIVE SHIP POWER**  
WASHINGTON, July 13.—Power to requisition vessels needed by the government today was definitely conferred on the United States shipping emergency corporation by President Wilson in an executive order. The corporation may purchase such vessels whether captured, in course of construction or only contracted for, and may also take over charters.

**SENATOR IS HURT**  
WASHINGTON, July 13.—Senator Ashurst of Arizona received injuries to his right arm and shoulder today when an awning, being lowered over a sidewalk on which he was walking, fell and knocked him unconscious. He was quickly revived and went to his office. The pain finally caused him to go home for medical attention.

**ASK BIG FUND**  
WASHINGTON, July 13.—War appropriations amounting to three billion dollars, in addition to the enormous sum already appropriated for the war, will be asked of Congress in estimates which administration officials have given notice would be submitted next week.

## Kiel Canal Attack Is Urged by Army Man

By William D. Hassett, International News Service Staff Correspondent.

WASHINGTON, July 13.—Victory for American arms through defeat of Germany in the air has become the war slogan of Congress. Thus was sentiment crystallized in the House today when Chairman Dent of the military affairs committee reported the \$640,000,000 aviation bill.

The bill came out of the committee with a unanimous vote that it be passed. So aroused are members to the necessity of immediate domination of the air by the United States and her allies that the bill will be passed tomorrow almost without opposition. It could be passed today but for parliamentary requirements.

The military committee has provided authorization of a flying corps limited in material and personnel only by the discretion of the President. German spies who study the bill will not be able to build up any correct estimate of the size of the aerial fleet about to be launched against them.

**ART DINNER TO BE UNIQUE EVENT**  
Inspired by the Artists' Feast and Frolic—the first of a series—to be given tomorrow night at the Oakland Art Gallery, Municipal Auditorium, by the artists of the Oakland Art Association, Selden Gyle has presented the gallery with a flock of fine pottery jars of Greek design, a monumental one to stand outside the auditorium, wherein a tree shall stand; to be considered at an early day from the complainant Park Commission. On the big urn, an art gallery sign shall be hung, to halt the passerby.

Moreover, Mr. Gyle is offering a nice little collection of paintings, some fifteen of them, that are charming in color and that have something to say. These will have their first showing tomorrow night.

Every night during the week the students from the Berkeley School of Arts and Crafts have been practicing their dances, the "Paint-the-Squeeze," the "Skip of the Skiff," and other equally exciting stunts that only art students know how to put over. Finn Frolich, sculptor, putting them through their paces.

Invitations to be obtained from Mrs. George Gyle, 139 Grand avenue, telephone Lakeside 951, read: "Bring a plate, a knife, fork, spoon, a glass and a dollar. Leave them when you go. What's left of the dollar goes to pay for the grand piano. A dinner and dance every month, and you'll need the tools and the piano."

Since a glass is requisitioned, it would seem that some "red ink" is to be spilled in the setting up of the new kingdom of Bohemia on the East Bay shore.

Finn Frolich, conspirator, asks that all good Oaklanders who are possessed of vines or flowers or shrubbery, not in active use, be sent to the Art Gallery, to give the newly acquired jars a busy look. These Greek jars are now the property of said Oaklanders.

Who will help to fill them with the places, will you bring votive offerings to Art?—and play you are early Greeks?

**COUPLES BRAVE DOUBLE JINX TO FOLLOW CUPID**  
Eighteen prospective brides and bridegrooms braved the "jinx" on Friday, the thirteenth, up to noon today, and took out licenses to marry. The number is far in excess of the usual license issued, and many told Deputy County Clerk "Cupid" Stewart Gemmell that they purposely chose the day, walked under ladders on their way down to the hall of records, walked out of step, returned to the house after leaving and then proceeded, split salt cellars without throwing the customary pinch over the right shoulder, and in every way defied the bewitched superstitions of the jinxed day.

Roy V. Lammiman and Miss Agnes A. Hargard were the most defiant of all. Both have thirteen letters in their names, and they were the thirteenth couple to procure a license to wed.

"We shall see," said "Cupid" Gemmell, shaking his wise old head and gazing with sadness at the desk of the judgment clerk, where divorce suits are filed.

sum already appropriated for the war, will be asked of Congress in estimates which administration officials have given notice would be submitted next week.

## NEW SCHEDULE FOR PRODUCE MEN

Although negotiations have not yet been completed, it is almost certain that business houses in the commission district will not open until 6 o'clock in the morning hereafter. The new schedule begins Monday, if all goes well. Petitioners circulated last night and today among clerks and employees of produce firms found every man in the district willing to sign. Their signatures mean that hereafter, unless new developments arise, Oakland's commission district will not begin the business day until 6 o'clock. The time now adhered to is 4:30.

At a meeting of commission house proprietors yesterday sympathy was expressed toward the viewpoint of the employees and a vote taken on the subject of 6:30 opening. With a single exception, the proprietors favored the men. The single blackball precluded action.

Today, in contravention of the one made yesterday, the district employees circulated the successful petition. So, although proprietors may arise one hour and a half earlier, mornings, to open their businesses by 5 o'clock and hucksters will sleep the sleep of the victors.

And the queer part of it all is this: The proprietors side with their employees.

**FIRST WHITE CHILD IN ALAMEDA DIES**  
ALAMEDA, July 13.—Dr. G. A. Christensen, the first white child born in Alameda, died today at his home 1223 Post street, corner Madison. Dr. Christensen was born in the house in which he died and the house was the first plastered house in Alameda. Christensen was a dentist and practiced in Oakland, San Francisco and Alameda for forty years. He had offices in San Francisco at Sixteenth and Mission, Twenty-third and Mission, and in Oakland on Broadway.

Dr. Christensen was married thirty years ago to Mrs. Caroline D. Trompou. Six children were born to the couple, four being now alive. The surviving children are: Harold Christensen, an East End merchant, Augustus Christensen, Mrs. Pearl Hopper and Mrs. Florence Drouot. Mrs. Carrie Lapham and Henry Christensen, both of San Francisco, are sister and brother of the deceased.

The funeral will be held from a San Francisco undertaking establishment Monday, with interment in Mt. Olivet cemetery.

**MRS. PARK DIES**  
HAYWARD, July 13.—Mrs. Margaret Park, 95 years of age, is dead at the home of her son, John Allan Park, banker here. Arrangements for the funeral of Mrs. Park who died Thursday will not be made until word is received from relatives in Chicago and Seattle. Mrs. Park was a native of Alameda, Scotland. She leaves two sons, George H. Park, also a local banker, and John Allan Park.

## GERMANS TRY NEW PROPAGANDA

PETROGRAD, July 13.—Germany is desperately pouring a new flood of propaganda into Russia in a superlative effort to dampen the popular war ardor. The directing point seems to be Stockholm.

Some of the evidences of this tide of argument as gathered today were German arguments against further Russian advances on the ground that the German minority Socialists had agreed to every point of the Russian peace aims, even including Alsace-Lorraine. Agitators whose previous activities have given indication of their connection with the German propaganda system are spreading these arguments.

Another rumor, apparently traceable to the same source, was that Germany was preparing for peace.

**PETROGRAD JUBILANT.**  
Petrograd continues jubilant at the fresh successes achieved in the great offensive. Troops in other sections of the front who have not yet had their orders to go forward are beginning to exhibit impatience to get at the enemy.

Ninety-seventh Regiment, for instance, has unanimously adopted a resolution to which 6000 votes were subscribed, refusing to cultivate the fields, and concluding:

"We will die in the trenches from disease waiting for pacifists and radical dreamers in Petrograd to decide whether we advance. We want to advance immediately. Let the rifle be used on those trying to hold us back. The life of the republic is at stake. The only way to save it is to advance."

**MINISTERS' LETTERS.**  
Minister of Posts and Telegraphs Tseretelli issued a formal letter to all telegraph employees today warning them to "speed up."

"The efficiency of the Russian telegraph system has fallen down 50 per cent," he said. "This is not due entirely to old apparatus. Employees must remember they have duties as well as rights. They owe it to Russia to do all possible, not as little work as possible."

**NEED ALUMINUM**  
CHICAGO, July 13.—The United States will require 50,000 tons of aluminum a year for airplane and motor vehicle construction to carry on the war against Germany, according to Dr. F. C. Weber of Chicago, a chemist and experimental inventor.

This amount of aluminum, Weber says, cannot be obtained from bauxite, its present source. We must use kaolin, or fireclay, which the Germans have been using since their source of French bauxite has been cut off. Weber says the country's supply of kaolin is practically inexhaustible. The largest deposits are in Illinois.

Weber has submitted his theory to the society of industrial engineers, which in turn will take it up with the council of national defense.

**WOMAN SCORED FOR MISUSE OF S. F.'S COGNOMEN**  
LOS ANGELES, July 13.—Calling San Francisco "Frisco" aroused the ire of Judge Jackson here today.

Mrs. Lillian Munger, who was testifying in her suit for divorce from Frank Munger, real estate broker, was asked where her husband went on a certain occasion. "I think he went to Frisco," she began.

"Frisco," ejaculated Judge Jackson. "Where's Frisco?" "I mean San Francisco," Madam, said the court, severely. "When you come into this court I want you to use California names properly."

**'WIRELESS COPS,' BERKELEY PLAN**  
BERKELEY, July 13.—Members of the department of physics at the University of California are continuing experiments which are designed to result in a new system of signaling policemen on their beat for the local police department. It will be comparable to the wireless outfit and will employ sound waves too high in frequency for the ear to detect but capable of detection by delicately attuned instruments.

The Berkeley police are, for the most part, mounted in automobiles. The signal for them to report to headquarters now employed is flashed in red lights at various points in the city or sounded on street horns. Out of sight of the light and of hearing of the horns they cannot be signaled.

The proposal now is to mount on each machine a sort of modified wireless aerial. The patrolmen will not have to learn the Morse code or any details of wireless operation. Pressing of a button at headquarters, if the plans succeed, will make a light flicker on the automobiles or a buzzer sound that patrolmen will take the nearest means of communicating with the station.

There are a lot of minor details to be worked out. Chief Vollmer said today, "but it looks as if the idea would succeed. The system will make for very increased efficiency in the patrol service."

**WOMAN SCORED FOR MISUSE OF S. F.'S COGNOMEN**

LOS ANGELES, July 13.—Calling San Francisco "Frisco" aroused the ire of Judge Jackson here today.

Mrs. Lillian Munger, who was testifying in her suit for divorce from Frank Munger, real estate broker, was asked where her husband went on a certain occasion. "I think he went to Frisco," she began.

"Frisco," ejaculated Judge Jackson. "Where's Frisco?" "I mean San Francisco," Madam, said the court, severely. "When you come into this court I want you to use California names properly."

**'WIRELESS COPS,' BERKELEY PLAN**  
BERKELEY, July 13.—Members of the department of physics at the University of California are continuing experiments which are designed to result in a new system of signaling policemen on their beat for the local police department. It will be comparable to the wireless outfit and will employ sound waves too high in frequency for the ear to detect but capable of detection by delicately attuned instruments.

The Berkeley police are, for the most part, mounted in automobiles. The signal for them to report to headquarters now employed is flashed in red lights at various points in the city or sounded on street horns. Out of sight of the light and of hearing of the horns they cannot be signaled.

The proposal now is to mount on each machine a sort of modified wireless aerial. The patrolmen will not have to learn the Morse code or any details of wireless operation. Pressing of a button at headquarters, if the plans succeed, will make a light flicker on the automobiles or a buzzer sound that patrolmen will take the nearest means of communicating with the station.

There are a lot of minor details to be worked out. Chief Vollmer said today, "but it looks as if the idea would succeed. The system will make for very increased efficiency in the patrol service."

**WOMAN SCORED FOR MISUSE OF S. F.'S COGNOMEN**  
LOS ANGELES, July 13.—Calling San Francisco "Frisco" aroused the ire of Judge Jackson here today.

Mrs. Lillian Munger, who was testifying in her suit for divorce from Frank Munger, real estate broker, was asked where her husband went on a certain occasion. "I think he went to Frisco," she began.

## PALO ALTO PLANS FOR CANTONMENT

PALO ALTO, July 13.—The Peninsula railroad will extend its line to the big army camp before the soldiers arrive next month, according to a statement made by Manager F. E. Chapin yesterday.

This will give the soldiers direct transportation to all important points in Santa Clara county. Special service and rates to San Jose and way stations will be given to the army men.

An effort will be made by the lodges and organizations of San Jose to promote features in that city for the proper entertainment of the soldiers of the Palo Alto cantonment. The women of Palo Alto will provide entertainments. With the Y. M. C. A. camps as a recreation headquarters and other amusements, the time of the soldiers should not lack for places to go during their leisure hours.

**"MOSTLY BULL," SAYS NEUHAUS; GOT INTO PRINT**  
TRIBUNE BUREAU  
201 SEATTLE AVENUE  
BERKELEY, July 13.—Some men are born famous, goes the old saw; some achieve fame and some have fame thrust upon them. Prof. Eugen Neuhaus of the art department of the University of California belongs by his own admission, in the second class. While firmly believing that the cow is not rhythmic, his recent expression of opinion, he confesses to a friend that saying the unusual was the best means of attracting attention.

"I admitted to a member of the faculty with whom I was talking," Professor Neuhaus says, "that I could not get in the papers and stay there for some time if I but would. I went to class and tried the experiment, apparently innocently bewailing the lack of peace and harmony in a cow. You see the result!"

"I think that our cow has become very much 'bull.' But I still insist that cows have no rhythm, and that is an accident. Had my critic attempted to paint the things as often as I have, she probably would agree with me."

**FUND IS RAISED**

Of American School System****President Foster of Reed College Delivers the  
Feature Address on Closing Day**

PORTLAND, Ore., July 13.—The National Educational Association closed its great war convention, the largest ever held in this section of the country, here today. At the conclusion of a week spent in discussing the present needs and problems of the American school system under existing conditions, it wound up its final sessions with the transaction of routine business, the election of officers, and the selection of the next meeting place.

Among the resolutions presented at the final session, the keynote of which throughout was "Loyalty," was an outlined platform in which the duty of American teachers to the government in time of war was placed paramount to all other subjects. Seventeen high school principals went on record against the proposed exemption of male teachers from military duty. The convention also endorsed the thrust campaign outlined by S. W. Strauss of New York, president of the American Thrift Society. The endorsement of free textbooks "unhindered by restrictions of publication and uniformity" was presented and adopted by the resolutions committee.

Northwestern educators held the cent of the convention today. Chief among the speakers were William Finley of Portland, W. J. Kerr, president of the Oregon Agricultural College, P. L. Campbell, president of the Oregon University, Henry Suzzallo, president of the University of Washington, Miss Emily Griffith, principal of the Opportunity school at Denver, J. A. B. Sinclair, United States Navy surgeon, D. D. Johnson, University of Washington, Walter B. Smith, Harvard Arthur W. Dew, Columbia, George H. Jensen, Pre-Vocational school, Stockton, Cal., R. G. Hall, Portland, Horace Ellis, State Superintendent of Public Instruction, Indianapolis, A. P. McKinley, State Commissioner of Education, Idaho, will close the lecture session tonight.

**SEALS ON NEEDS OF YOUTH.**  
The address of President William T. Foster of Reed college on the needs of the youth of the land, stood out as the feature address of the closing day of the convention. Under the topic, "The Claims of Scholarship," President Foster said: "The war has brought out in sharp relief the characteristic shortcomings of the schools of the United States. Our people, as a whole, are prone to contentment with mediocrity and the absence of the discipline of prompt, thorough and exact achievement. In these respects, the schools of the United States reflect the people. Our schools, as a rule, do not make necessary the prompt and complete performance of the pupil. They do not cultivate the habit of 'being there.' As challenges to the powers of the majority of the girls and boys of the United States, they are absurdly inadequate. The high school diploma is no guarantee of the discipline or to the college that the graduate has ever been required to do his best at anything. In this respect, a college degree is no better. Indeed, it is the discipline of the pursuit of the joys of college life, during which the youth has formed the habit of 'getting by' with a minimum of effort.

"Thousands of boys in our training camps are experiencing for the first time the necessity of performing assigned tasks promptly and exactly, day in and day out. Thus they are having the benefits, for the first time, of a discipline from which there is no escape. All of them know it, and many of them enjoy it. They would be the first to acknowledge that they would be far better off now, had they been obliged, throughout their school days, to toe the mark.

**PRESIDENT FOSTER'S HARD TASKS.**  
"The teachers of the schools and colleges of the United States, themselves, as a rule, products of easy-going institutions, are not likely to make the rigorous demands that are necessary for the cultivation of character. When they do begin to tighten the screws, objections are raised at once by parents and politicians. Students themselves do not offer serious difficulties. In the long run, they prefer the hardest task-masters.

"This school contentment with work half done is reflected in our industrial world. What conservation there was in all our laboratories where accuracy is imperative as soon as the supply of instruments from Germany was cut off. In opposition to the proposed adoption of the metric system by manufacturers in this country, Mr. Halsey said, in the American Mechanic: 'Those who make things instead of merely measuring them regard the argument for the system as without weight.' This scorn for the man who merely measures things is a natural product of slipshod school methods. What inaccurate measurements may mean in a crisis, we are discovering by means of bombs that explode a few seconds before their time, shells that almost fit, target-finders that are sometimes dependable, and machine guns that only approximate the specifications.

"Declaring that 15,000,000 of men had been plunged into war, Mr. Sinclair, urged that the youth of the schools be taught to think and work along scientific lines as a conservative move.

"We need men who are trained to think scientifically," he said, "to apply their scientific knowledge to their tasks. As sudden as was the act of an unknown youth, whose leap exploded the European powder-mine, was the stroke of the German military establishment, and the rapidity with which the War of Wars developed—the most amazing feature of a cataclysm, the full horrors of which only posterity will know, and this is proven by the fact that in less than three months the losses in killed, wounded and missing had been estimated at a million men, and nine nations, numbering a total of 15,000,000 souls, were at war.

"One of the most salient features of the military-naval establishments of the opposing powers today is the specialization of the one-time citizen-soldier along scientific war-industrial trade-lines, and since war and present events and the best human forecast do not justify the human hope for early world-peace, it behooves our schools to train their young men to think and work in such scientific lines to the end that mobilization of such resources will insure our nation against disaster.

**URGES MAXIMUM CARE.**  
Dr. R. G. Hall of Portland, urged the cultivation of public opinion and the cooperation of legislative effort to secure the maximum of care of the modern school child.

"There is a vast need of extending the work of school inspection, and this can only be filled by educating the public as to the value of this work. Doctors, nurses, and teachers should get together and spread the word of the sound body and the happiness and efficiency that accompany it. A campaign of talks, lectures and exhibits as well as newspaper publicity must be carried on to promote, through public opinion and legislation, a wider opportunity to protect and perfect our children."
